Nic Bittle

PROGRAM OVERVIEW

There has never been a better time to build a career and there has never been more at stake. Safety and operational excellence is no longer just a good idea, it's critical to anyone's success. The decisions we make and the steps we take each and every day will determine what our future looks like.

OBJECTIVES

In this keynote, participants will learn:

- > **How to set yourself apart from the rest.**
- > **How to eliminate career mistakes and missteps in the workforce.**
- > **The critical skills necessary for success, and**
- > **What attributes will increase an individual's awareness and safety minded success.**

Know This, Do That is what someone needs to *know* to build a successful career and what they need to *do* to stay safe while building the life they want. (or make it home every day uninjured.) Your organization's employees who attend Nic's presentation will be safer, more effective and more productive. If you would like to continue to improve safety and operations in your organization call the Safety Institute today to schedule a discussion about bringing Nic on site.
