

Upscale Contemporary 2024 Collection

- **Beach Glass**

Discarded and broken, beach glass becomes a beautiful treasure smoothed by sand and water. A complex blend of fresh, clean, and green grasses blend with ozone and earth, like the aroma of the first rain after a long, hot summer.

Top Note: Calamus; **Middle Note:** Ozone; **Base Note:** Petrichor

- **Crystal Ballroom**

In his late 80's, we had the opportunity to take my father-in-law on our pontoon around the lake. He enjoyed it so - but, as we approached what was the Buckeye Lake Amusement Park, he pointed to an area and said, and that was the Crystal Ballroom - the place where your mother and I were engaged. It took him back to a beautiful memory. Boasting notes of Arabian Jasmine, Galbanum, Labdanum, and Vanilla, this fragrance takes you to that special time and place.

- **The Dance**

An art form of movement. The sights, sounds and smells around the lake - they dance!

Top Notes: Magnolia Blossom, **Middle Notes:** Frangipani, Jasmine; **Base Notes:** Tobacco + Vanilla.

- **Driftwood**

Moving through rivers, lakes, or oceans and washed onto shore, driftwood has completed a journey. Twigs from a nearby tree or boards that fell off a dock - they have been transformed by their adventures into something beautiful. **Top Notes:** Geranium + Pomelo; **Middle Note:** Pink Pepper; **Base Note:** Palo Santo

- **Lighthouse**

Our lighthouses are not only historic reminders of days past but are working beacons that still send light out into the night. A clean, green, and fresh fragrance. **Top Notes:** Orange Blossom, Key Lime, Cotton; **Middle Notes:** Plum, Pomegranate; **Base Notes:** Bamboo, Beechwood
