

Memo

To: All Employees
From: Human Resources
Date: July 17th, 2026
Re: Authorized Parking

Golden Nugget employees are not permitted to park on Company property without prior authorization. Employees who are authorized to park on Company property must register their vehicle(s) by completing an Employee Parking Registration Form and must park only in their designated parking area. If you are unsure whether you are authorized to park on Company property, please contact your direct supervisor or manager.

Golden Nugget has partnered with Metropolis to manage the Self-Parking Garage and uses automated technology to streamline the payment process and improve service. The garage utilizes cameras to record vehicle license plates in real time as vehicles enter and exit. All vehicles parked in the garage are subject to this automated process.

Employees who are not authorized to park on Company property may visit Human Resources to obtain a copy of the **Downtown Parking Options** document provided during the new-hire process.

Unauthorized parking or misuse of complimentary parking QR codes may result in disciplinary action, up to and including termination of employment. The use of complimentary parking QR codes is recorded and subject to audit.

If you have any questions, please contact my office at extension 8136.

Thank you in advance for your cooperation.
