Story: I have been instrumental in my granddaughters life since she was a born and as of February 1st 2024 got custody of her because her mother lost all rights to her. She has 7 other siblings that are scattered in other foster homes. The challenges I am facing is I was surviving on my Social Security taking care of her and myself with our no assistance until October 2024 the assistance started. She is fourteen with separation anxiety from her brother's and sister. She arrived with hardly any appropriate clothes, due to her coming after enrollment for a school she attends Cohen HS. I bought all of her uniforms, clothes and appropriate clothes for the Winter since she didn't have the proper clothing. Finances are limited and it is costly to maintain a teenager. Dealing with giving her structure when she was not accustom to rules and regulations is challenging but I will not give up on her because she has no way to go. She is very intelligent and and does well in school and of course needy. We have managed this far and I am grateful for what I am getting now. The biggest need is dress clothes and dress shoes. I am teaching her how to wear the appropriate clothes for different kinds of outings. So the need for her would be Dress Clothes, dress shoes, coat for special events, teenage jewelry, bracelets, and girly things. It is very expensive to keep up with the demands of school functions and my motto is if you can't go right then don't go at all.

I am working on her spending time with her sister that is 11 during the holiday break. I am in contact with her aunt. We are the only ones living in the house and I raised 3 sons so this is different than visiting summer/ holiday/ birthdays.

Between December and January we look forward to being adopted. Any help would be appreciated. I am all she has.

Sincerely,
Ms. Sledge

P.S. My granddaughter was living in Lake Charles but she has been here many times. She has been in and out of foster care since she was 3. I fought for her and every time it got close to get her they would send her back to her mother but I always found a way to keep up with her, teach her, send her care packages, buy her clothes when she would come here every time. She has been to 14 schools and she's 14. But it's not where you come from it's where you're going. She is destined for great things and I have anything to do with it.
