

DGCpartners, LLC is a fully insured, VOSB, independent management & technology consulting firm offering business & technology advisory services. DGC brings experienced resources that make the critical difference at the beginning of the Business-IT turnaround, strategic program, or business startup/rescue/expansion – in government (Medicare, Medicaid, and technology), manufacturing, aerospace & defense, healthcare, and insurance.

The resources we bring are the best of the best, not what's available on the bench. We can bring a set of technical leaders deep in your industry, technology & functional focus. We can assess, identify & target specific needs requiring attention right away.

How do we do this? We've been there. We've run strategic corporate initiatives, stood up consulting practices, been CIOs, had our businesses - developing deep relationships & affiliations and successful Management & IT Consulting, Procurement, IT Executive, and major programs business-critical program & project execution. We know the best resources and work with them on a partner-to-partner basis, not as a body shop. We also don't have interns, new hires, or a bench of under-utilized resources.

OUR SERVICES

*Strategic & Special Projects,
Program Startup, Governance,
Quality Management,
Turnaround of IT Services
Interim Executive Services*

STRATEGIC & SPECIAL PROJECTS: *Assess & Target Effort to a Critical Idea, Strategy, Initiative, or Project*

Need a new strategy but are not sure what your option is? Need help understanding where things may be falling short or getting approval, planning, or executing your next project? We can bring the right resources and focus on the issue at hand, using our experience to show you an approach - coaching, and executing, leaving you at the end with a completed project and more capable staff and a keen understanding of the work performed.

PROGRAM STARTUP, GOVERNANCE & TURNAROUND: *Sync – Assess - Strategize – Select – Contract – Configure - Implement – Optimize Complex Change Faster, More Precisely, With Less Disruption*

DGCpartners specializes in transformation program startups, rescues, and optimizations. When you feel like a change is in order, let us work with you to make it happen quickly and effectively. We provide insightful assessments of the situation and create a recommendation roadmap for/with you that leverages applicable standards and best practices. We help you understand the alternatives clearly and provide business cases, work plans, and execution services accompanying change management as necessary.

IT SERVICES OPTIMIZATION: *Take Your IT to New Levels of Performance*

Are you looking to assess and improve IT/OT functions? We can help you build the capabilities you need. Whether designing a new business-IT strategy, focusing technology investment on value, improving IT service management, or enhancing reporting / PMO and/or vendor management, we have experience showing you your options, developing a roadmap, and executing it. We also provide services to companies that wish to create new alliances and implement and support their products & services.

INTERIM EXECUTIVE SERVICES: *Get the Business-IT Operational Results You Expect*

Are you dealing with an unexpected transition in your organization? Have a young COO or CIO who could use a coach? Need an infusion of experience? Let us provide seasoned IT Executives who have been there. We provide CIO, VP & Director-level support to assess the situation, close the gaps in knowledge and experience, address succession planning, provide mentors, establish new strategies, plan transformations, and drive results.

CONTACT US!
