**BENGAL DISPOSITION & IMPORTANT ACCLIMATION INFORMATION: Unlike Other Domestic Cats: Most Bengals Have Very High Energy (Especially Kittens), are Demanding of Your Time, Headstrong [can be intentionally naughty at times], Anxious, Territorial, & Extremely Intelligent with Insatiable Curiosity - Much Like Having a Perpetual 2 Year Old Child, which is 1 of MANY Reasons Why they Should ALWAYS Start Acclimation in a Very SMALL ROOM (a bathroom without carpet) for a MINIMUM od 2 FULL WEEKS!! A Small Room also Makes Them Feel MUCH More Secure, therefore, Lowering their Stress Level, Resulting in Quicker Acclimation - Only If Uninterrupted!**
