Re: California's felony convictions ... none valid, no not one.

Dear

In the multitude of counselors there is wisdom. Proverbs 11:14.

We [prisoners] want to be right. We owe it to our God, family and selves. We want to go home ... and if we are right on this point of fact supported by law, we are so entitled. As are 117,000 other California prisoners similarly situated.

Authority for the state to prosecute felonies via complaint is that which remains after you pop a soap bubble.

Please find enclosed 4 pages of information designed to present the issue in layman's terms, supported with citations of indisputable authority titled "Without One Plea" and Press Release.

Although the article places primary blame with the District Attorney for filing felony complaints without authority, the judges of every superior court in every county in California are equally guilty. Upon presentment with an unauthorized pleading the judge ought to have and should, sua sponte dismiss the complaint for want of jurisdiction. Failure to do so has resulted in the unlawful imprisonment of over 117,000 persons currently and untold hundreds of thousands in the past 60 years. Its time to stop the due process violations.

Our purpose is to STOP unlawful prosecutions by exposing the current practice as being violative of due process and ultimately unsustainable under our constitutions. Remedy for false arrest/imprisonment is available through Habeas Corpus ... providing the courts address the issue. However, application for relief should be as simple as presenting a copy of the bogus felony complaint to the prosecutor who caused the problem and demand he/she move the court to dismiss and discharge the prisoner. SB 1134 already provides for HC based on new evidence, jurisdiction can be raised at any time, and \$140 per day is already legislated for compensation.

The prosecution and imprisonment of persons pursuant to a felony complaint, absent any and all authority, may be considered by some to be criminal conduct under color of law and actionable under Penal Code §§ 661, 115(a), 182(a) [1-5] and 18 U.S.C. §§ 241, 242.

How do we present this issue of statewide significance and Constitutional magnitude to the authorities responsible for correcting the error?

How do we make them listen and respond with affirmative action?

What actions do you recommend?

To what extent are you willing to be involved?

How can we help?

Since March 2018 I've sent Certified Mail demand letters to various District Attorneys outlining the issue and demanding cessation of prosecution via felony complaint. No response, no cessation of prosecution. A fraud and conspiracy of major proportions? "Silence can only be equated with fraud where there is a legal and moral duty to speak and where an inquiry left unanswered would be intentionally misleading." U.S. v. Tweel, 550 F2d 297-300 (1977).

Food for thought: How can the DAs charge the public as criminals for statutory violations when they are committing wholesale Constitutional violations in order to do so?

It is clear that this issue has enormous implications that are unquantifiable: impacting thousands of persons who have been, are being and who will continue to be, unlawfully prosecuted by felony complaint, absent intervention by the People.
