

CENTAURUS

CENTAURUS ENERGY INC.

CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024

(UNAUDITED)

NOTICE OF NO AUDITORS' REVIEW OF INTERIM FINANCIAL STATEMENTS

The accompanying unaudited interim condensed financial statements of Centaurus Energy have been prepared by and are the responsibility of the Company's management. The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditors.

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

1. Reporting Entity

Centaurus Energy Inc. (the "Company," the "Corporation," or "Centaurus") was involved in the exploration, development and production of oil and natural gas in Argentina until January 2023. The Company is currently focused on managing the future proceeds from the Overriding Royalty Interest (the "ORRI") payable by Pan American Energy, ("PAE"), which may include investment in new endeavors and/or capital returns. Centaurus's registered office is 1250, 639 – 5th Avenue S.W., Calgary, Alberta, T2P 0M9.

The consolidated financial statements include the results of the following wholly-owned subsidiaries:

- Madalena Petroleum Ltd. (Canada) ("MPL")
- Madalena Petroleum Americas Limited (Barbados) ("MPAL")
- Madalena Petroleum Holdings Limited (Barbados)

The Company has determined that it operates as a single operating segment, as defined in IFRS 8 Operating Segments. The Chief Operating Decision Maker (CODM) reviews financial information on a consolidated basis for the purpose of allocating resources and assessing performance.

2. Basis of Preparation

These condensed interim consolidated financial statements have been prepared in accordance with Generally Accepted Accounting Principles ("GAAP") applicable to a going concern, which assumes that Centaurus Energy Inc. will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company incurred a net loss of \$52 for the period ended September 30, 2025 (2024 gain of \$260), has a working capital deficiency of \$4,625 (December 2024 - \$4,795) and an accumulated deficit of \$216,032 (December 2024 - \$220,768).

Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), and are presented in United States Dollars ("USD") unless otherwise indicated.

These condensed interim consolidated financial statements follow the same accounting policies and method of computation as the annual consolidated financial statements for the year ended December 31, 2024. The disclosures provided below are incremental to those included with the annual consolidated financial statements. Certain information and disclosures normally included in the notes to the annual consolidated financial statements have been condensed or have been disclosed on an annual basis only. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2024, which have been prepared in accordance with IFRS, as issued by IASB.

The condensed interim consolidated financial statements were approved and authorized for issue by the Company's Board of Directors on October 28, 2025.

Basis of Measurement

The consolidated financial statements have been prepared on the historical cost basis, except as described in the accompanying notes.

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

Functional and Presentation Currency

The functional and presentation currency is the USD.

Use of Estimates and Judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the change is identified, and prospectively in future periods.

Judgments are made by management to determine the likelihood of whether deferred income tax assets at the end of the reporting period will be realized from future taxable earnings.

Critical judgments and key sources of estimation uncertainty in applying accounting policies

The following are critical judgments and estimates that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements.

Deferred taxes

Management is required to make estimations regarding the tax basis of assets and liabilities and related deferred income tax assets and liabilities, the measurement of income tax expense, and indirect taxes. A number of these estimates require management to make estimates of future taxable profit, and if actual results are significantly different than estimates, the ability to realize the deferred tax assets recorded on the statements of financial position could be impacted. The Company is subject to assessments by tax authorities that may interpret tax law differently. These factors may affect the final amount or the timing of tax payments.

Contingencies

Due to the nature of the Company's operations, various legal and tax matters are outstanding from time to time. In the event that management's estimate of the probability of a financial impact of these matters changes, the Company will recognize the effects of the changes in its consolidated financial statements on the date such changes occur.

Going Concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operating expenditures and to meet its liabilities for the ensuing year involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

Digital assets - accounting

Digital assets consist of cryptocurrency denominated assets and are included in current assets. Digital assets are accounted under IAS 38 Intangible Assets. Digital assets are initially recorded at cost, which is the fair value of the digital asset received. Subsequent to initial recognition, digital assets are carried at their cost less any accumulated impairment losses.

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

Impairment of Non-Financial Assets

The determination as to the existence and measurement of any impairment requires management to make significant estimates and assumptions, which includes estimated future cash flows, discount rates and estimated useful life. These significant estimates and judgements could impact the Company's future results if the current estimates of future performance and fair value change. This could affect the amount of amortization expense and any impairment charges on intangible assets in future periods.

3. Digital Assets

As at September 30, 2025, the Company advanced a total \$388,074 for the purchase of Ethereum which was delegated in accordance with the revenue recognition policy to earn staking rewards. As at September 30, 2025, the Company has a balance of \$397,567 due from Bitbuy (a crypto exchange subsidiary of WonderFi Technologies Inc.(WNDR)) secured by a total of 137.9459 Ether (ETH) valued at \$397,567.

During the period ended September 30, 2025, the Company earned staking revenue of \$6,580.

The following table presents the reconciliation of the beginning and ending balances of the digital assets as at December 31, 2024 and as at September 30, 2025:

Asset	Detail	Beg. Balance	Purchases	Sales	Staking rewards	End. Balance
Ether	Quantity	135.7192	0.0000	0.0000	2.2267	137.9459
	Valuation - USD	390,988	-	-	6,580	397,567

4. Other Long-Term Assets

Other long-term assets are comprised of the following:

	Period ended September 30, 2025	Year ended December 31, 2024
	\$	\$
ORRI Payments Receivable	10,685	10,958
Balance, end of the Period / Year	10,685	10,958

On March 23, 2022, the Company sold its remaining 29% working interest of CASE to PAE, in exchange for ORRI payments to the Company, payable in semiannual installments. The Company recorded the fair value on initial recognition of the ORRI as \$10,400,000 and subsequently carried at amortized cost using the interest rate of 7% over 18 years. The Company uses a weighted average valuation technique to fair value the incoming cash flow.

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

Date	Beg. Balance	Initial Recognition	Payment received	Interest & Accretion	End. Balance	Current	Long Term
	\$	\$	\$	\$	\$	\$	\$
December 31, 2022	-	10,400	121	563	10,842	304	10,538
December 31, 2023	10,842	-	304	751	11,289	415	10,874
December 31, 2024	11,289	-	415	780	11,653	696	10,958
September 31, 2025	11,653	-	660	589	11,582	897	10,685

Actual ORRI payments are calculated based on 2.5% of production volume and an interest adjustment of 2.5% for years 2023-2028, a 3% rate for years 2029-2033, and a 4.5% rate for years 2024 to 2040.

PAE's payment obligations are satisfied upon the earlier of:

- Payment in full of \$16,830,000 ORRI Payments (not inclusive of interest adjustment);
- December 31, 2040; and
- the termination of the CASE operating agreement by the Argentina Government

The next payment is expected in February 2026.

5. Loan

On October 19, 2020, the Corporation signed a loan agreement with David Tawil, the Chief Executive Officer, bearing interest at 7% per annum ("Tawil Loan 1"), due on demand.

On March 20, 2024, David Tawil entered into a new loan agreement with Centaurus, providing up to \$1.5 million of revolving loan, at greater of: (i) 7% per annum or (ii) 65% of the capital appreciation on the corresponding Ether the Company purchased funded by the loan ("Tawil Loan 2"), due on demand and secured by the assets of the Company, purchased with the proceeds of the loan.

USD 000s	Tawil Loan 1	Tawil Loan 2	Total
At December 31, 2024	680	409	1,089
Proceeds	-	-	-
Interest	29	20	49
At September 30, 2025	709	429	1,138
Current	709	429	1,138
Long-term	-	-	-
Total	709	429	1,138

Since the Company cannot reliably measure the value of the profit due to different variables, the Company designated the entire hybrid contract as at FVTPL.

www.ctaurus.com

CENTAURUS

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

6. Short-term debt and derivative liability

On May 8, 2017, Centaurus entered into a series of agreements (the "Transactions") with Hispania Petroleum S.A., ("Hispania"), which provided for a total package of debt of up to \$23 million, with interest accruing at 7% per annum on principal and interest on each drawdown, repayable thirty-six months after drawdown. The \$23 million debt consisted of a \$6.5 million working capital loan (the "Working Capital Loan") and a \$16.5 million convertible loan for purposes of funding of certain of Centaurus' capital expenditure obligations and acquisitions (the "Capex Loan").

In June 2019, the Company borrowed \$1.7 million under the Working Capital Loan. As at December 31, 2024, \$1.7 million has been drawn on the Working Capital loan.

On April 7, 2019, the Company amended the Capex Loan agreement and included KD Energy as an additional loan party to the agreement. KD Energy is controlled by Alejandro Peñafiel and Jose Peñafiel, who were officers of the Company until their employment was terminated on March 24, 2020.

The Capex Loan is no longer convertible.

In June 2019, the Company borrowed \$0.3 million under the Capex Loan. As at December 31, 2024, \$0.3 million has been drawn on the Capex Loan.

On March 25, 2020, the Corporation announced that Jose Peñafiel and Alejandro Peñafiel had been terminated and had ceased to be officers and directors of the Company.

On March 26, 2020, the Company received a notice of default and reservation of rights from KD Energy and Hispania.

The Transactions are the current subject of claims and counterclaims among the Company, Hispania, KD Energy, the Peñafiels and other related parties in the courts of Alberta.

KD Energy International, Capital Limited, Jose David Peñafiel, Alejandro Augusto Peñafiel, and Totisa Holdings S.A. v Centaurus Energy Inc

In a Canadian court, KD Energy made a claim for repayment of funds advanced to Centaurus allegedly under the Capex Loan in the amount of \$2,093,014.76, plus 7% interest from 7 April 2020 to date of trial, or alternatively claim by Totisa in unjust enrichment for funds advanced in the amount of \$2,093,014.76 plus interest under the Judgment Interest Act, plus costs. In addition, in the same case, Jose Peñafiel claimed for wrongful dismissal damages of \$315,000 plus aggravated and punitive damages of \$300,000, and Alejandro Peñafiel claimed for wrongful dismissal damages of \$180,000 plus aggravated and punitive damages of \$150,000, plus interest.

In this case, Centaurus defeated a summary judgment application by Totisa.

KD Energy International Capital Limited and Hispania Petroleum S.A. v Centaurus Energy Inc.

In the same Canadian court, KD Energy and Hispania have made claims for repayment of debt in the amount of \$2,411,770.40 plus interest of 7% per annum accruing from 27 June 2022 to date of trial, for funds advanced to Centaurus under either a capex loan or a working capital loan facility, plus costs. This relief sought is duplicative of the relief sought previously.

Centaurus filed a Statement of Defence and Counterclaim, seeking to set off any amounts owing, seeking damages of at least \$3,000,000 and punitive damages against the Plaintiffs, and seeking to consolidate the Actions.

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

The Plaintiffs filed a Statement of Defence to Counterclaim and Reply to Defence. Centaurus filed a Reply to Statement of Defence to Counterclaim.

The following table presents the reconciliation of the beginning and ending balances of the components of the loans as at December 31, 2024 and as of September 30, 2025:

USD 000s	Liability	Derivative Liability	Total
At December 31, 2024	2,694	-	2,694
Interest	107	-	107
At September 30, 2025	2,801	-	2,801

The Company has no bank debt in Canada at September 30, 2025 or at December 31, 2024.

7. Share Capital

The Company is authorized to issue an unlimited number of common shares and preferred shares. The holders of common shares are entitled to receive dividends as declared by the Company and are entitled to one vote per share. No preferred shares were outstanding at September 30, 2025 or December 31, 2024. No dividends have been declared by the Company at September 30, 2025 or December 31, 2024.

	Number of Shares 000s	Share Capital 000s
Balance at December 31, 2023	1,088	239,029
Share buy back (Note 13)	(11)	(3,361)
Balance at December 31, 2024	1,077	235,668
Share buy back (Note 13)	(22)	(4,833)
Balance at September 30, 2025	1,055	230,835

Earnings Per Share

As of September 30, 2025, there is no dilutive impact of the convertible debentures or share options. The following table provides the weighted average number of common shares used in the per share calculations:

	Three months ended September 30		Nine months ended September 30	
	2025	2024	2025	2024
Weighted average number of common shares - basic - 000s	1,055	1,088	1,088	1,088
Net income - USD 000s	31	(72)	(52)	260
Per share - basic (\$/share)	0.03	(0.07)	(0.05)	0.24

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

	2025	2024	2025	2024
Unrealized foreign exchange loss (gain)	(9)	7	20	(7)
Total	(9)	7	20	(7)

11. Sale of Madalena Energy Argentina SRL to Gasener

On January 12, 2023, Centaurus closed an agreement with Gasener SRL, a hydrocarbon trading company based in Argentina, whereby Gasener acquired Madalena Energy Argentina S.R.L, the Company's operating subsidiary based in Argentina. Pursuant to the Transaction, Gasener acquired MEA for a purchase price of US\$20,000 and assumed all liabilities with respect to MEA. Prior to the Transaction, Centaurus acquired MEA's interests in the ORRI in exchange for assumption and extinguishment of the intercompany debt owed by MEA to Centaurus. In addition, as part of the Transaction, a debt obligation of approximately \$260,000 owed by MEA to David Tawil was assumed by Centaurus. The effect of the Transaction was that the Company transferred all its conventional oil and gas assets and related liabilities in Argentina, including sizable upcoming drilling commitments, to Gasener, while retaining the ORRI.

12. Financial Instruments and Risk Management

The Company is exposed to various risks that arise from its business environment and the financial instruments it holds. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework, policies and procedures. The following outlines the update to risk exposures and explains how they are managed.

Capital Management

www.ctaurus.com

CENTAURUS

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

The Company manages its capital structure to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital of the Company consists of issued share capital.

The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital, but rather relies on the expertise of the Company's management to sustain the future development of the business.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended September 30, 2025. At September 30, 2025, the Company is not subject to externally imposed capital requirements

Financial instruments

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values.

Financial instruments measured at fair value are classified into three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;

Level 3 – Inputs that are not based on observable market data.

The fair values of the Company's cash and cash equivalent, accounts receivables, current loan, trade and other payables, and short term debt approximate carrying value, which is the amount recorded on the consolidated statement of financial position.

The Company's financial instruments are exposed to the following risks:

Foreign currency risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency.

The Company is exposed to foreign currency risk on fluctuations related to cash, accounts receivable, and accounts payable and accrued liabilities that are denominated in Canadian dollars ("CAD"), U.S. Dollars ("USD") and Argentina Pesos ("ARS").

The Company's reported results will be affected by fluctuations in the CAD, and ARS to USD exchange rate. Management has assessed the impact of foreign currency risk and determined it to be minimal.

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risk.

Risk management policy

The Company is exposed to credit risk, liquidity risk, and digital asset risk. The Company's senior management monitors these risks.

Credit risk

CENTAURUS

Notes to the Condensed Interim Consolidated Financial Statements

As of and for the Nine Months Ended September 30, 2025 and 2024 (Unaudited)

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

Credit risk is the risk of an unexpected loss if a third party fails to meet its contractual obligations, including cash. The risk regarding cash is mitigated by holding the majority of the Company's cash with high credit financial institutions.

The Company's exposure to credit risk is influenced mainly by the ORRI payment. Management analyzed PAE's creditworthiness and the default risk of the ORRI payment, as these factors may have an influence on credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

Historically, the Company's source of funding has been the issuance of equity securities for cash and debt. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk is limited and only relates to its ability to earn interest income on cash balances at variable rates. Changes in short term interest rates will not have a significant effect on the fair value of the Company's cash account. The interest rate on the Company's loans is fixed in nature and have limited exposure to changes in interest rates.

Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to any significant price risks with respect to its financial instruments.

Digital asset risk

Digital assets are measured at cost less impairment. Digital asset prices are affected by various forces including global supply and demand, interest rates, exchanges rates, inflation or deflation and the political and economic conditions. Further, digital assets have no underlying backing or contracts to enforce recovery of invested amounts. The profitability of the Company is related to the current and future market price of digital assets; in addition, the Company may not be able to liquidate its holdings of digital assets at its desired price if necessary. Investing in digital assets is speculative, prices are volatile, and market movements are difficult to predict. Supply and demand for such currencies change rapidly and are affected by a variety of factors, including regulation and general economic trends. Digital assets have a limited history, their fair values have historically been volatile, and the value of digital assets held by the Company could decline rapidly. A decline in the market prices of digital assets could negatively impact the Company's future operations. Historical performance of digital assets is not indicative of their future performance.

Many digital asset networks are online end-user-to-end-user networks that host a public transaction ledger (blockchain) and the source code that comprises the basis for the cryptographic and algorithmic protocols governing such networks. In many digital asset transactions, the recipient or the buyer must provide its public key, which serves

Notes to the Condensed Interim Consolidated Financial Statements

(Tabular amounts are stated in thousands of United States dollars ("USD"), except per share amounts and as otherwise stated)

as an address for a digital wallet, to the seller. In the data packets distributed from digital asset software programs to confirm transaction activity, each party to the transaction must sign transactions with a data code derived from entering the private key into a hashing algorithm, which signature serves as validation that the transaction has been authorized by the owner of the digital asset. This process is vulnerable to hacking and malware and could lead to theft of the Company's digital wallets and the loss of the Company's digital asset.

Digital assets are loosely regulated and there is no central marketplace for exchange. Supply is determined by a computer code, not a central bank. Additionally, exchanges may suffer from operational issues, such as delayed execution, that could have an adverse effect on the Company.

Additionally, to the extent that the digital asset exchanges representing a substantial portion of the volume in digital asset trading are involved in fraud or experience security failures or other operational issues, such digital asset exchanges' failures may result in loss or less favorable prices of digital assets, or may adversely affect the Company, its operations and its investments.

13. Purchase of Common Shares

On May 28, 2024, Centaurus announced that the TSX Venture Exchange ("TSXV") accepted the Company's notice to extend and implement a normal course issuer bid ("NCIB") to purchase up to 108,545 of its common shares, representing 10% of Centaurus' Public Float (calculated in accordance with the rules of the TSXV), over a twelve month period commencing on May 30, 2024. The NCIB expired on May 30, 2025.

As at September 30, 2025, Centaurus has purchased 37,300 shares.

The following table presents the reconciliation of common shares holdings as at December 31, 2024 and as at September 30, 2025:

Asset	Detail	Beg. Balance	Purchases	Sales	End. Balance
CENTAURUS ENERGY INC REGISTERED SHS ISIN#CA15138B3065	Quantity	15,300	22,000	-	37,300
