---

### Current Token Distribution

Main Holder (99.97%) – Reserved for project growth, liquidity, and community rewards

---

Remaining 0.03% – Early supporters and testers

## Use Case

Fitcoin aims to:

Reward Fitness: 1 Calorie burned = 1 Fitcoin

Enable Earning via Exercise: Use FTC to buy fitness products, memberships, and services

Support Health Ecosystem: Integrated with gyms, health apps, and wearables

Drive Decentralized Wellness: A movement backed by real blockchain Power

## Conclusion

Fitcoin is more than a token – it's a movement.

Secure. Transparent. Fitness-first.

Backed by blockchain and designed for a healthier world.
