

ReliAlert™XC3

One-Piece GPS Offender
Monitoring Device

For High Risk Offenders

Or Run-Away Teens

Combines cellular and global positioning system (GPS) technologies into a (3.5" X 4" X 1.25"), patented device that straps to an offender's ankle.

Integrates a physical tracking device with a sophisticated GPS software system and a Monitoring Center to provide real-time location tracking 24/7.

Multiple Inclusion and Exclusion Zones per Offender, with Automatic Buffer Zones used.

Offering the best device in the industry for High Risk Offenders - More technology than any other device

- *Single-unit device for added simplicity*
- *No land-line required*
- *No external power required*
- *Easy set-up*
- *Tamper resistant*
- *Motion detection*
- *Multiple beacons per offender (home, work, etc.)*
- *Multiple offenders per beacon*
- *Five-minute tracking/reporting increases to one-minute tracking/reporting for 10 minutes after zone violation*
- *Active GPS tracking*
- *Two- and three-way voice technology offers instant communication with offenders and officers to enable active violation intervention*
- *48+ hour battery life*
- *Waterproof up to 15ft*
- *Stores data when temporarily out of range- then automatically forwards information when back in range*
- *Tamper-resistant with tamper sensors - improved fiber optics*
- *Set exclusion/inclusion boundaries*
- *95-decibel siren*
