

The History of Haggard's to Haggard

Haggard's Plumbing & Heating est. 1968

Haggard's Plumbing & Heating was established in 1968 by its founder, William Haggard. William (Bill), partnered with his brother John in 1971 to further expand the provided services. Together Bill and John implemented a thriving business, serving the commercial community. They would later come to serve both commercial and residential segments of Charlevoix and the surrounding areas.

1968-2023...

After 55 successful years in the plumbing and heating industry, Bill and John Haggard decided to pass the pipe wrench down the thrown to long time employee and friend of 24 years Frank Cesaro. Frank, Master Plumber, and now the new owner of Haggard's has implemented some slight changes to the business name. Still respecting the Haggard brothers' years of hard work and dedication to the business they built from the ground up, Frank decided to keep the wrenches turning while keeping the legacy of the Haggard last name still going strong. With a lot of thought Frank made the decision to make a change to the business name from Haggard's to Haggard Plumbing and Heating Corporation.
