

Perforated Window Film O WVCL

54"x164' \$ 312/roll (Offer Expires March 31, 2021)

8mil Perforated Window Film

Perforated vinyl 70/30 or 60/40 ratio with removable adhesive dual liner
This 70% or 60% print surface, white face and black back perforated film is designed for optimum store-front graphic visibility with finer details allowing for smaller text. The 8mil vinyl stretches less and is easier to handle than economy products. Its dual OPP clear liner absorbs ink so your hands stay clean during installation. Twice the standard perforated hole depth to work with Eco-Solvent, UV, and Latex print platforms.

FEATURES & BENEFITS

70/30 or 60/40 Perforation = Visibility to Meet Every Application

Dual Liner for Latex, UV Curable, Eco-Solvent and Solvent Ink = Better View Through After Installation

8mil Thick with Removable Adhesive = Easier to Install & Remove

164' Rolls = Faster Production & Less Waste
