WEDDINGS | EVENTS & BRANDING

Welcome to the Paparazzi

We are so glad you found us.

The paparazzi is your team capturing all of the little moments at your wedding or event.

The things you miss, the little moments that happen and depending on the package you choose; allows us to be able to capture the entire day or just the moments you find important.

Each package offers the biggest piece of the puzzle. Time.

They say less is more but in this case more and more and we get to capture hundreds of photos and videos and then create snap shots for your social media and of you course for you to keep forever. Raw footage of everything that happened.

Now it is up to you, check out the packages and all the finer details and for everything else, get in touch and we are always up for a chat.

Jay B and the Pap team.

QUESTIONS... ANSWERED

What is a reel and how long will it be?

A reel is designed for social media (FB, Insta & Tiktok) each reel goes for approx a minute depending on the length of the video and photo's added.

What is raw footage?

Raw footage is un-edited content, no filters just what the camera captures. The only editing is the creation of video and Reels.

How much editing will be done?

Apart from the editing and creation of reels and mash up of video and photo content no other editing is completed.

What is the video diary?

In this case we use our Sony Vlog camera to capture your guests leaving you love notes, captured in both video and linked sound via our RODE wireless mic's as a keep sake of each guests a message just for you.

How does the polaroid wall work?

Used for receptions we supply the camera's and a wall for guests to add there photos and leave a message on each one. It's all about capturing each guest as a keep sake for the two of you and making photo's fun.

Should we add Whip Lash delivery?

This comes down to how fast you want all of your content. We always get a sneak peak out and your Reels so you can share everything with the world and then the rest comes within the time frame you have chosen.

How is it all delivered to us?

The sneek peak is delivered via email and socials and the balance comes to you via a drop box link along with the sneek peeks too

What if we want to add extra time on the day?

Just ask, we only do one event a day so we normally have the ability to stay
