## Who is this crazy celebrant

Hi, I'm Jay

I'm Brisbane based and have an addiction to... apart from shiny things.

the "Love Buzz" it gets me every time. This buzz comes in so many forms; from our catch-ups to the day itself and the vibes that come with it all. It's this bubble that makes you smile and want more.

My celebrant vibe is one of fun, not the kind of fun where someone pays out your grandma, fun as in the laughs, tears and smiles and the way I interact and conduct your ceremony.

I'm a true believer that people remember how you made them feel in the moment, how your story is told is so important and is customised to the two of you. I go out of my way to create little moments that matter through the who process and even more on your day.

To get all the amazing stories & information I need. I have created a lounge-room picnic pack. Because who doesn't love, snacks, drinks and a chat about the biggest day of your lives. It's time for the two of you, to discuss the finer points of the day, tell me all about the two of you and have some alone time with a secret section.

This is the secret element is sent back to me privately where you have told me all about the person you are about to marry. The more you give me the more creative I can get for you.

I take all of this goodness and intertwine your notes, to tell a bespoke story about the two of you.

To make life a little easier, I give you access to your own client portal, where elements are delivered to you like check-lists, questionnaires, hints and tips, suppliers lists and as I get more and more creative you gain access to it all.

& to top it all off it is an option to have the ceremony printed into and read from one of my amazing children's books, that you get to keep.

xx  
Jay

“

What can we say, booking 'Married by Jay' was one of the best wedding preparation decisions David & I made. Having Jay as not only our celebrant but also our Master of Ceremonies was a brilliant idea. From our first meeting, we felt very relaxed with Jay. By the second meeting, we were drinking champagne together. On our wedding day, he was like
