

Items Over \$50

In order to improve our sales and customer satisfaction, we have determined that a closer inspection is needed for many items in the higher price range.

If the item you are considering buying has a sales price of \$50.00 or more, you may take it to the check approval station. There you will be able to un-tape/open the item and inspect it for missing pieces, quality, or plug it into an outlet to see if it works. The item then must be re-taped and packaged as before to be purchased or returned to the sales floor.

Please notify the check approval person of your intent before you un-tape/open the item, and please only do this at their station and with their consent. Un-taping/opening a closed package on the sales floor may result in dismissal from the resale. Our goal is to keep our buyers satisfied, and our sellers assured that their merchandise is being properly handled. We hope this helps us all have a happy and successful resale.
