# FLORIDA LEGISLATIVE HIGHLIGHTS

The Florida Legislature meets every year from March to May. It sometimes meets in special session when the Governor calls it for a special topic as last summer for the property insurance crisis, this past fall for property and storm insurance issues and this spring for hurricane preparedness, Reedy Creek District (Disney), immigration and education issues.

Residents of Oaks Royal 3 are property owners, and as such, we are affected by every law passed by the legislature of Florida. Also, every property owner here has a representative to the legislature, even if you are a snowbird, giving you a voice in these laws that are being considered if you choose to exercise it!

Here are some tidbits, that you might find interesting:

Homeowner rates and Facebook!

Some articles claim that homeowners insurance could skyrocket another 20-30% if proposed anti defamation legislation HB 991 & SB 1221 become law. The legislation aimed at journalists and social media bloggers who do not quote facts or name sources in what could be considered libelous articles against persons, could apply (according to the articles) to private citizens who rant on social media like Facebook, Twitter, Instagram, etc against their favorite people, corporations or government agencies. Your 'personal injury insurance' on your property currently covers you if people take exception to such rants and sue. The articles indicate that this legislation aimed at journalists also make individuals easier targets.

Are we a Mobile Home Park or an Home Owners Association?

There is a lot in the news about legislation changing statute 723 for Mobile Home Parks, changing tenancy rules: benefitting owners, benefitting tenants, lien holders, etc. Please understand, we are

NOT COVERED BY 723; this statute covers residents of owned mobile home parks, timeshare and condo developments where residents may rent, own, or lease the residence but DO NOT OWN the property the residence is on. In contrast, here in Oaks Royal 3, residents own both the home and the property, and it states so on your deed. This is why our Articles of Incorporation call us the 'Oaks Royal 3 Home Owners Association'. As such, we are covered by statute 720, Home Owners Associations. So when you see these articles come up in the news, it is confusing, understandably; but now you know which statute you belong under.

## Pet Laws?

Dogs and Cats are on your representatives' minds again this year! SB 932 proposes to curtail any unrestrained pet transport inside or outside (truck bed) the vehicle. The dog or cat must be in a crate, restrained in seat belts, or held securely by the driver at all times. In addition, this bill makes it illegal to cosmetically declaw a dog or cat; declaw the pet for non-medical reasons relating to the comfort of the pet owner. This bill makes it illegal to tether a dog or cat outside except if the pet is visible to the owner at all times and NOT during severe weather such as: heat, cold, thunder storms, lightning, tropical storms and hurricanes. The bill would make the sale of rabbits except as livestock illegal, and would establish a registry of animal abusers across the State.
