

About Dr. Rahm

Dr. Christina Rahm Cook (AKA: Dr. Christina Rahm) is an artistic scientist and researcher and has traveled worldwide consulting in various areas of business, health, and wellness. Her education consists of an undergraduate degree, master degree, doctorates, and post graduate work focused on various areas of science, including counseling, psychology, health rehabilitation, nanotechnology, bioscience engineering, biochemical engineering, tissue engineering, biomedical product development, nanobiotechnology, nanostructures, and targeted drug delivery. Her past education includes Southwest Baptist, Murray State University, University of South Alabama, University of Sarasota, Argosy University, Peri Institute, Harvard and Charter.

Our founder is not a MD, but rather, the title, Dr. Christina Rahm/Dr. Christina Rahm Cook is her public figure name and related to her advanced degrees in the sciences, which include doctorate and post-doctorate work in various areas of science. We call her Christina or Chris, or CJ and she prefers these names. Christina's pharmaceutical and biotech consist of work on the sales, business, clinical science, medical science, and research side of companies like Pfizer, Bristol Meyer Squibb, UCB, Biogen, Biogen Idec, Janssen/J&J, and Alexion.

The company makes no promises or claims concerning products produced; rather all licensed products are the legal responsibility and liability of the licensor. Once products or inventions are licensed from our brand, it is the sole responsibility for the licensee as to how they promote, market, or sell the product and Dr. Rahm has no control of how this occurs at this time.

The brand and the founder have spent 3 years focusing on Nanotechnology and Bioscience Engineering and is focusing on these advancements at this time. Our founder is a scientist, a researcher, a student, an artist, and a lover of people and life. Together we will soar! Positivity brings life to our innovations and it is time to stand together!
