WORST CLOWN SHORTAGE

Due to the pandemic, there is a shortage of clowns in Northern Ireland. Clowns are an important part of our world not only for entertainment, but for other reasons as well. Rudolph helped guide Santa's sleigh with his red nose that all clowns, including himself, consider the most important part of them. With this shortage, will Ireland have the jolly Christmas that everyone loves and knows? Also, people will not be able to have their desired wedding without these clowns being the ring bearers and flower girls. If you would like to apply to be a clown just like Rudolph, then let us know at our website: unwsia.com

DEVIIOUS MARSHMALLOWS

The humpty dumpty association of America suggests that people stop eating marshmallows. They have been discovered to brutally injure any being who attempts to eat them. We have been reported as cannibals because marshmallows are people too. According to research, marshmallows were once kind souls, but the only reason they attack is because we are evil to them, our fellow human beings. So, before you eat any more marshmallows, think about whether you would want to be eaten alive.

PUT ON TOOTHPASTE TRIAL

Emily Wigglesworth has been arrested officially because of not brushing her teeth. An update on last month is finally in. Emily was not killed, but given an even worse punishment. She not only has to brush her entire family's teeth twice a day, but also has to have her jaw dislocated once a week. Would you rather have a death penalty or this? Comment at unwsia.com Tomorrow you can see Emily's jaw being dislocated broadcasted across America for all to see.

OSTRICH WINS BEAKBALL

The bird beasts won the game of beakball due to Ostrich Ollie. He hit the thousand pound ball with his protective beak case, and the ball went straight into the goal, hidden in a tall tree. The ball hit Cardinal Carry causing her to crack her freshly polished beak. She was so furious that she pecked one of Ostrich Ollie's eyes out. This was unfortunate, but at least Ostrich won the game for his team. Go bird beasts!

TO WILAMINA WILLIAMSON

I know you are an alien. I have always known that your green skin was not a disease. I still love you though Wilamina!! You are the greatest alien I've met, and that is saying something. To all aliens out there: You don't have to hide who you are. You will be accepted by all, and if not, that is not your problem it's ours. - Mason Greysonson

SLOTH SEASON IS HERE

Sloths are known to sleep all day, but I am about to share a deep secret that all sloths hide. Sloths are spies. Their eyelids are shaded on one side, but clear on the other, so while it looks as if they are sleeping, they are watching your every move. With eyes hidden in the fur on the back of their head, they can see in all directions and they know everything. When you are near a sloth, beware because you have no privacy at all. This is sloth season. More sloths than ever are prowling the woods and trees. Keep your distance.
