

SAFESFIR.AI

COMPANY CASE STUDY

OPTIMIZING FRESH PRODUCE DISTRIBUTION

INTRODUCTION

A Texas-based produce distributor struggled with spoilage, stockouts, and inefficiencies, which led to revenue loss and strained customer relationships. With SafeSfir.AI, they gained real-time tracking, accurate forecasting, and seamless proof of delivery, improving operations and profitability.

CHALLENGES

PRODUCE SPOILAGE

High inventory losses due to perishability.

STOCKOUTS & OVERSTOCKS

Frequent mismanagement of inventory levels.

REVENUE LEAKAGE

Missed sales and unrecorded deliveries.
