

LABTEK

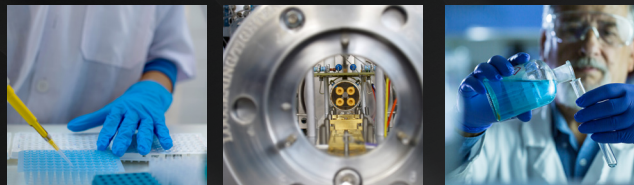

*Mass Spec Tables & Benches
are designed for LCMS or GC needs.*

- Black, powder-coated steel frame
- Black, chemical-resistant phenolic top
- Sturdy frame design prevents any sagging or warping from the weight of instruments
- Large industrial casters allow you to move the table to any location with ease
- Sound-dampening enclosure for vacuum pump
- Temperature control sensor shuts fans off when pumps are no longer in use
- Shipped in pieces or prebuilt for your convenience

**Mass Spec Tables and Benches are in stock at our
Wilmington, NC warehouse.**

*Producing high-purity
nitrogen for laboratory
applications.*

No missed cylinder deliveries

One-year warranty*

Flexible service plans

LABTEK™

*A Safer, Smarter and
Cost-Effective Solution*

NITROGEN GENERATORS

- Generate nitrogen on demand
- Delivers up to 99.99% pure nitrogen (flow rate dependent)
- Designed for continuous use
- Exceptionally quiet, compact designs

Producing high-purity nitrogen for laboratory applications such as Liquid Chromatography – Mass Spectrometry, Glove Boxes, and Evaporators.

N₂35, N₂70 N₂30 Dual, N₂90 & Tri-Gas

- Dual-bed pressure swing adsorption (PSA) technology
- Touchscreen control displays status and maintenance alerts; remote monitoring capabilities
- Compact design

The N₂30 Dual was designed with the Shimadzu 8050 and 8060 in mind. This unit will produce up to 15 LPM of nitrogen and up to 15 LPM of dry air.

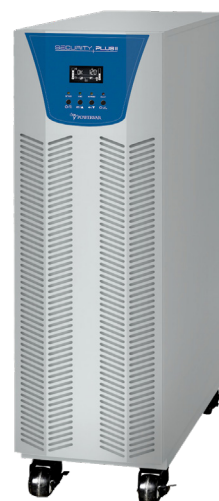

N₂100 & N₂220

- Wall-mount standard, floor mounting optional
- No electrical required
- Simple plug-and-play design
- Membrane System uses existing compressed air

Security Plus II Series UPS

- Low impedance isolation transformer
- High load inrush capacity
- Impressive 1.0 output Power Factor
- Customizable back panel for direct plug-in installation
- Programmable LCD display screen
- Space-saving footprint

SmartTrak allows for remote monitoring.

LABTEK N₂35 and N₂30 models fit smoothly under the LABTEK Mass Spec Tables and Benches.
