

This is a list of companies we know about that provided products used by the original home builders in Davidson Bay. These products may or may not have been used in all the units.

### Windows

Patriot Vinyl Windows (a.k.a. MW Manufacturers, Inc.) went out of business sometime around 2015-2016, apparently as a result of a class-action lawsuit.

Parts for their windows (or reasonable approximations) may be available on the aftermarket. A good place to start is SWISCO:

### Cabinetry

When originally built, many of the homes in Davidson Bay had Timberlake cabinets installed in kitchens, bathrooms, and possibly elsewhere. Here's is some information if you need to find parts:

The manufacturer, Timberlake Cabinetry, sells exclusively to builders. However, a subsidiary, 1951 Cabinetry, sells Timberlake products to retail distributors. In the Lake Norman area, the distributor is LKN Cabinets.

### Exterior Light Fixtures

The exterior light fixtures used for the homes on Beaty, Magnolia, and Armour are the Progress Lighting BrassGUARD Lantern 1 (28.5" height). They are available online at Lowe's. Here is the link:
