

Davidson Bay Rules for Exterior (Coach) Lamps

Lamps must be black in color and either an exact match for the existing lamps or, if an exact match cannot be found, similar in style and size. For an exact match, ACC (Architectural Control Committee) approval is not required, otherwise, a request for ACC review should be submitted. A form is available on our website, dbayhoa.com/homeowner-information under Miscellaneous Documents. A request can also be submitted via Main Street Management's website.

For homes located on Beaty St., Armour St., and Magnolia St. (except for affordable units) an exact match is available from Lowe's website: [Progress Lighting BrassGUARD Lantern 1, 28.5 inch](#) .
