

## Imagine Departure List

### Interior

- Close bedroom, living room, bathroom ceiling vents.
- Close all windows
- Secure bedroom door.
- Put down the countertop extension.
- Secure table.
- Make sure fridge and freezer doors are completely closed. "Click"
- Turn off the thermostat.
- Close slide. \*Must go in all the way, do not stop half way.
- Turn off the water heater/water pump.
- Retract awning.

### Exterior

- Empty black tank, use black hose for tank flush, empty gray tank. Close valves.
- Turn off water, remove and store blue hose.
- \*If using potable tank, empty fresh water onto ground.
- Turn off breaker at the site's electrical pedestal. Detach and store power cord.
- Raise steps and lock the door.
- Raise stabilizer jacks.
- Attach RV to tow vehicle. Have second person double check all safety clips/pins etc.
- Test RV lights, signals, brake lights.
- \*If using curved levelers, remove front chocks and drive forward a few inches so levelers can be removed. Use spotter for this.
- Visually inspect tires.
- Walk around RV checking that storage doors are closed, awning in, windows closed, and nothing is attached.

### Additional

- Everytime a travel stop is made, do a walk around the RV, checking the hitch set up, tires, and general exterior of the trailer.
- Please do not attempt a drive thru
- When in tight parking/maneuvering situations, remember GOAL "Get Out and Look". Having a spotter on a cell phone walking next to the RV is helpful too.
