

I Support 197 Schools

Vote Yes on November 3rd!

District 197 is supported by a thoughtful and engaged community. We understand the importance of planting seeds for future growth — and education is a seed worth planting, every time.

Why we need high-quality schools

- They help make our community attractive to families and businesses.
- They keep demand for housing strong
- They prepare future workers and leaders.

It's easy to take public schools for granted, but their importance in the success and sustainability of our community can't be overstated. For decades, state funding has not kept pace with inflation, creating funding gaps in school districts all over Minnesota. Our district is asking the community to approve a levy that would amount to \$4.6 million each year for 10 years. That is roughly \$14 a month for the owner of a \$400,000 home. Without this community contribution, the district would face difficult choices, including teacher reductions, class size increases, and programming elimination.

At a time when everyone seems to be asking for more from us, please consider making education a priority as you make decisions about the future of our community.

Vote YES twice on November 3rd

- ✓ Vote YES for the Capital Project Levy
- ✓ Vote YES for the Permanent School Fund Amendment
