## **START USING YOUR MAGIC FOR GOOD!**

---

3. Start using your magic for good. Now that you have learned some cool magic tricks, it's time to start using your new power. Have a magic trick show for your friends and family and amaze them with your new talent!

## **RESEARCH & DO**

---

4. Research and identify some cool famous magicians.

Who's your favorite magician?

What sets your favorite magician apart from others?

How did your magician get started in magic?

Has your magician created any of his own magic trick?

## **GET CREATIVE**

---

5. Can you create your own magic trick? Try to make up your own magic trick to trick your audience. Here are some things you may want to think about:

What supplies will you need?

How much time will you need to perfect your trick?

For whom will you perform your trick?

Remember that in creating your own magic trick, magic tricks are mostly illusions. Just have fun trying something new! All of your tricks may not work out, but have some fun perfecting them.

Looking for something else, different, or more? Ask your Camp Director (parents) or Counselor (other older youth or adults) to help you search on Pinterest (ex: bug craft, watercolor bug, bug books, etc.) Your Camp Director (i.e. parent) would also be able to help you look on other resources like Teacher Pay Teacher for free or inexpensive resources or Amazon Smiles for books or materials. Reminder: the BPC earns money on all eligible purchases through Amazon Smiles.
