

Happy Cyber Security Awareness Month!

Since 2004 the dedicated month has been set as October. This year's the theme has been set as 'See Yourself in Cyber' by the NCA and CISA.

What 4 Things is the Campaign Trying to Bring to Attention?

1. Reporting phishing.
2. Updating your software.
3. Using strong passwords.
4. Enablement of multi-factor authentication.

Scarborough to Become Cyber Security Area of Excellence

It has recently been confirmed that Scarborough will receive funding to help build its new Cyber Security facility called 'FabLab+'. Its purpose is to help provide training and awareness along with support for smaller to medium sized businesses. The deadline for this project has been set for March and will include demolishing the Comet building.
