CyberSec Weekly

Happy Monday!

Welcome to the 51st issue of CSW.

In this issue:

NATO Investigates Alleged Data Leak

Call of Duty Game Servers Taken Offline

WordPress Plugin "Ninja" Allows Hackers to Steal Data

And much more...

Do you like leaks? Us too! Do you like NATO? We don't! And so, we present... a leak of hundreds of documents retrieved from NATO's COI portal, intended only for NATO countries and partners. These documents are very delicious~ While we were looking through it, we had to relieve our horniness many times! gay furries pwn 31 nations~;3 "g4y furr135 4r3 h4q1ng th3 p14n37" Not even NATO can withstand our seduction~ These documents contain info about NEWAC, AFPL, FMN, JLSG, STCO, and more! (NATO really likes acronyms >w<) We'd like to emphasize this attack on NATO has nothing to do with the war between Russia and Ukraine, this is a retaliation against the countries of NATO for their attacks on human rights (- Also, its fun to leak documents ^w^). We hope this attack will get the message across to each country within NATO. LEAK: https://mega.nz/file/# Minister (Linestalling) *purrs cutely* enjoy these NATO documents :3 We'll be back soon for more! 🌂 17 🕰 10 👍 8 🔥 6 😁 5 😽 5 👎 4 80 🕒 3 🔉 2 🙀 1 • 10.2K 6:04 AM

NATO Investigates Alleged Data Leak

SiegedSec has claimed to have stolen data from NATO, the hack involved NATO's Communities of Interest (COI) Cooperation Portal. They notified people of this via Telegram in a very odd post which can be seen above.
