BROWS

DO NOT!!

WORK OUT FOR 48 HOURS AFTER PROCEDURE

- NO OINTMENTS, CREAMS, VITAMINS ON AREA*
- NO SAUNA, NO SWIMMING, NO POOLS UNTIL SCABS ARE COMPLETELY HEALED & GONE!*
- NO SUNBATHING OR TANNING FOR 4 WEEKS AFTER PROCEDURE*
- NO CHEMICAL PEELS, BOTOX, DERMABRASION OR ANY OTHER STRONG TREATMENTS FOR 4 WEEKS AFTER PROCEDURE.*
- NO HEAVY MAKEUP OF ANY KIND FOR AT LEAST 2 WEEKS AFTER PROCEDURE*
- DO NOT SCRATCH AREA DO NOT SLEEP ON AREA*

DAY 1

GENTLY BLOT AREA WITH A CLEAN TISSUE TO ABSORB ANY FLUID.

DAY 2-7

USE FINGERTIPS AND A LIGHT TOUCH TO WASH EACH DAY WITH UNSCENTED CLEANSER. GENTLY PAT DRY.

ANG YMNES W AAY ORE FEEARE

ACROSS AREA. BE SURE TATTOO IS DRY BEFORE MOISTURIZING.

DAY 2-7

REPEAT DAYS 2-7 AS NEEDED

STAGES OF HEALING

SOME DAYS MAY NOT FEEL GOOD BUT IT'S OKAY! TRUST THE PROCESS

DAY 1

SO IN LOVE WITH MY NEW BROWS!

DAY 2-4

MY BROWS ARE TOO DARK!

DAY 5-7

OH NO

MY BROWS ARE PATCHY

DAY 8-10

UGH. MY BROWS ARE GONE!

DAY 14-28

YES, COLOR IS COMING BACK

DAY 42

(AFTER TOUCHUP)

I LOVE MY BROWS!!

EYELINER

**POST-CARE IS VERY IMPORTANT TO THE APPEARANCE AND LONGEVITY TO OUR NEW EYELINER*

DAY1: GENTLY BLOT AREA WITH A CLEAN TISSUE TO ABSORB ANY FLUID, DO NOT GET WET FOR 24 HOURS. IF YOUR EYES ARE TOO SWOLLEN YOU CAN USE A COOL PACK TO PUT ON DO NOT USE ICE PACK (GET A ZIPLOC BAG AND PUT 1 CUBE OF ICE AND ADD SOME WATER IN IT, SINGLE USE ONLY TO AVOID BACTERIA GROWTH)

DAYS2-14: USE FINGERTIPS AND LIGHT TOUCH TO WASH EACH DAY WITH WATER THEN GENTLY PAT TO DRY. DO NOT LET ANY CLEANING PRODUCTS OR HAIR SHAMPOO GET ON IT

THE FOLLOWING MUST BE AVOIDED DURING ALL 7-14 DAYS POST-EYELINER PROCEDURE:

- DO NOT PICK, STRETCH OR RUB THE EYE AREA DURING HEALING
- NO BLEACH, DYE OR EYELASH LIFTS FOR ONE MONTH FOLLOWING THE TATTOO PROCEDURE (THAT CAN AFFECT THE PIGMENT)
- NO EYE CONTACT LENSES
- AVOID GARDENING AND PLAYING WITH PETS CLOSE TO THE NEW TATTOOED AREA
- DO NOT EXPOSE TATTOOED AREA TO SUN OR TANNING BEDS
- NO FACIALS, NO MAKEUP OR MASKS FOR 14 DAYS, AND AVOID THEM IN THE EYELINER AREA INDEFINITELY.
- NO SWIMMING POOLS, JACUZZIS OR OTHER BODIES OF WATER FOR 14 DAYS.
- AVOID SHOWERHEAD DIRECTLY ON AREA
- LASER PROCEDURES DONE WITHIN 3 INCHES OF PERMANENT MAKEUP CAN CAUSE FADING
- FACE PEELS, EVEN MILD ONES, MAY CAUSE PERMANENT MAKEUP TO LIGHTEN.

WHAT TO EXPECT AFTER YOUR EYELINER SESSION

DAY1: YOU'LL LOVE YOUR NEW EYELINER

YOUR EYELINER COLOR IS APPROXIMATELY 30% DARKER THAN IT WILL BE WHEN ITS HEALED. IT WILL ALSO APPEAR SLIGHTLY THICKER IN JUST A FEW DAYS. THIS IS DUE TO COLOR OXIDATION AS WELL AS A SMALL AMOUNT OF SWELLING AND IT IS A NORMAL PART OF YOUR HEALING PROCESS

DAYS2-3: YOUR COLOR WILL DARKEN TEMPORARILY AS THE PIGMENT OXIDIZES AND THIN SCABS WILL FORM.

YOU MAY WAKE UP SLIGHTLY PUFFY BUT YOU CAN REMEDY THIS BY SLEEPING ON AN INCLINE OR APPLYING A COOL COMPRESS. YOUR EYELINER WILL FEEL TIGHT AND DRY. BUT NOT PAINFUL.

DAYS3-5: YOUR EYELINER WILL BEGIN FLAKING UNTIL THERE IS NO SCABBING LEFT. NOTE THAT BECAUSE DUE TO EYES SWELLING DURING THE PROCEDURE, THEY WILL HEAL 10-15 % THINNER AND LOSE UP TO 15-30% OF THE COLOR, ITS COMPLETELY NORMAL. THAT IS THE REASON A 4-6 WEEKS TOUCH UP IS HIGHLY RECOMMENDED TO KEEPING THE COLOR LONG LASTING.

ONCE ALL THE SCABBING HAS FINISHED FLAKING, IT IS COMMON FOR THE COLOR TO APPEAR LIGHTER AND THINNER. (COLOR LOST CAN BE 15-30%.)

DAYS25-35: YOUR EYELINER IS FULLY HEALED, THEY MIGHT APPEAR UNEVEN THAT'S NORMAL DUE TO EYES BEING VERY SENSITIVE, AND WE ARE NOT ALLOWED TO WORK ON THEM TOO LONG TO AVOID BLOW OUT. THAT IS THE OTHER REASON YOU WOULD NEED A TOUCH UP AROUND 4-6 WEEKS

**AFTER TOUCH UP, EYELINER CAN LAST AT LAST 4-6 YEARS.*

LIPS

POST-CARE IS VERY IMPORTANT TO THE APPEARANCE AND LONGEVITY OF YOUR NEW LIPS COLOR.
FOLLOW THIS POST CARE IMMEDIATELY AFTER THE PROCEDURE FOR 7 DAYS
PUT A&D OINTMENT ON (2-3 TIMES DAILY) UNTIL ITS HEALED, DO NOT LET LIPS DRY OUT.

DO NOT LICK YOUR LIPS IT COULD COST UNEVEN HEALING AND INFECTION
YOU MAY APPLY AN ICE PACK (WHICH MUST BE PROTECTED WITH A CLEAN WET BARRIER FILM OF PAPER
TOWELING, TOWEL OR CLOTH) FOR 10-MINUTE INTERVALS FOR THE FIRST 24 HOURS. ICE MAY BE APPLIED
EVERY HOUR OR SO, IF DESIRED. DO NOT PUT ICE DIRECTLY ON THE AREA.
AFTER LIP TATTOO PROCEDURE KEEP LIPS COMPLETELY DRY FROM EVERYTHING.
CONTINUE TO KEEP LIPS DRY AND CLEAN.

DRINK THROUGH A STRAW FOR THE FIRST FEW DAYS.
EAT CLEAN, DRY FOODS WITH CUTLERY TO AVOID GETTING THE LIPS DIRTY.

- AVOID SPICY, ACIDIC AND SALTY FOODS.
- AVOID DRINKING SOUP
- NO KISSING UNTIL THE SCABS ARE ALL GONE.
- DO NOT GET SOAP, SHAMPOO OR OTHER CLEANSERS ON THE TREATED AREA PICK OR SCRATCH AT THE DRY
SKIN/FLAKINESS; LET THE SKIN FALL OFF NATURALLY. PICKING CAN CAUSE SCARRING AND PREMATURE
LOSS OF PIGMENT.
- DO NOT APPLY MAKEUP TO THE TATTOOED AREA. COSMETICS OF ANY KIND MAY INTERFERE WITH THE
HEALING AND COLOR OF YOUR TATTOO.
- DO NOT BRUSH TEETH WITH ANY WHITENING, BAKING SODA OR HYDRO PEROXIDE.
(USE KIDS TOOTH PASTE ONLY)
- DO NOT ENTER SWIMMING POOLS OR JACUZZIS

DO NOT SOAK YOUR FACE UNDERWATER IN A BATHTUB OR ALLOW THE SHOWER TO SPRAY DIRECTLY IN YOUR
FACE

DO NOT EXCESSIVELY STRETCH LIPS BY SMILING BIG OR PUCKERING LIPS WITH SMOKING WHILE THEY ARE
HEALING. THOSE MOTIONS PUSH AND PULL AGAINST THE LIP EDGES, APPLYING TENSION AND FRICTION
BETWEEN THE STRONG NORMAL SKIN SURROUNDING THE MOUTH AND THE BROKEN INFLAMED LIP EDGES. LIP
SKIN IS A CONTINUATION OF THE DELICATE MUCOUS MEMBRANE IN THE MOUTH. IT IS NOT STRONG LIKE
NORMAL SKIN.

- WHAT TO EXPECT AFTER YOUR LIPS SESSION
- THE COLOR WILL LOOK BOLD LIKE LIPSTICK IMMEDIATELY AFTER, THIS IS DUE TO THE PIGMENT
OXIDATION. YOUR LIPS WILL LOOK SLIGHTLY LARGER THAN NORMAL AS IF YOU MAY HAVE HAD
LIP FILLER INJECTION. THIS WILL ONLY LAST A DAY OR TWO. THE SIZE OF YOUR LIPS WILL
SHRINK BACK TO NORMAL AND THE COLOR WILL SIGNIFICANTLY FADE UP TO 40-60% WITHIN THE
FIRST 7 DAYS. YOU WILL LOSE COLOR ON THE INSIDE OF YOUR LIPS FIRST, THE EDGES LAST.
- A CRUST THAT FORMS WILL START TO FLAKE AWAY REVEALING A LIGHTER AND MORE NATURAL
COLOR.
- IN MANY CASES, THE CLIENT WISHES TO GO DARKER ON THEIR TOUCH-UP APPOINTMENT. IT IS
ALWAYS BEST TO AIR ON THE SIDE OF CAUTION ON THE FIRST PROCEDURE, BECAUSE LIPS SCAR
VERY EASY.
- LIPS WILL PEEL FOR A WEEK. ALLOW THEM TO FLAKE OFF ON THEIR OWN. PICKING AND PULLING
OFF SKIN THAT IS NOT READY TO COME OFF WILL CAUSE PIGMENT LOSS AND CAN PULL OUT
DEEPER TISSUE. THE EDGES OR LIP LINER WILL BE THE LAST TO FALL OFF. PULLING THIS OFF
WILL RESULT IN AN UNEVEN SPLOTCHY LINE OR AN INDENTED SCAR
- DURING THE PEELING PROCESS, IT MAY LOOK LIKE THERE IS NOT MUCH COLOR THERE. COLOR IS
MORE APPARENT BY THE THIRD WEEK AND WILL CONTINUE TO CLARIFY UNTIL 5 WEEKS.
- NOTE: ALL PROCEDURES WILL HEAL, PEEL AND FADE! THE APPROXIMATE HEALING PERIOD IS 10
DAYS, HOWEVER HEALING CAN BE PROLONGED IF YOUR IMMUNE SYSTEM IS COMPROMISED, IF
YOU ARE GENERALLY STRESSED AND BY POOR DIET.

HAIR PIGMENTATION

HAIR PIGMENTATION POST-CARE IS VERY IMPORTANT TO THE APPEARANCE AND LONGEVITY OF YOUR NEW HAIRLINE

DO NOT WASH YOUR HEAD FOR AT LEAST ONE DAY AND ON THE 2ND DAY, YOU CAN WASH IT WITH WARM WATER AND BABY SHAMPOO OR ANTIBIOTIC SOAP (SKIP RUBBING ON THE TREATED AREA). IF YOU NOTICE YOUR SCALP BEING DRY AFTER THE SHOWER, PLEASE APPLY A&D AND CONTINUE DOING IT ONCE A DAY.

DO NOT TOUCH THE TREATMENT AREA WITH YOUR BARE HANDS. WHAT HAPPENS IS YOUR HANDS CARRY BACTERIA AND GERMS YOU DON'T WANT TO INFECT THE TREATMENT AREA. YOU ARE ALLOWED TO WEAR A HAT AFTER 3 DAYS OF YOUR TREATMENT BUT NOT SOMETHING TIGHT (NO WIGS, HAIR EXTENSIONS).

"NO SWEATING OR TOO HOT

NO RUNNING OR HITTING THE GYM FOR 3 DAYS.

AFTER 7 DAYS, YOU ARE GOOD TO GO AND GET BACK TO REGULAR EXERCISE AND ROUTINE.

FOR ONE MONTH, AVOID ANY SWIMMING POOLS WITH CHLORINE, ANY BODY OF WATER THAT CONTAINS SALT. GOING INTO A SAUNA OR A STEAM ROOM.

DURING SUNNY WEATHER, APPLY SPF 50 THIS WILL PROTECT YOUR TREATMENT FOR ANY FUTURE FADING AND ALSO IT'S GOING TO PROTECT YOUR SKIN FROM ANY SUN DAMAGE.

WHAT TO EXPECT AFTER YOUR HAIRLINE SESSION

ENTIRE HEALING PROCESS WILL TAKE FROM 3-4 WEEKS DEPENDING ON YOUR BODY REGENERATION AND AGE. YOUR NEW HAIRLINE WILL GO THROUGH SEVERAL PHASES DURING THE HEALING CYCLE. THE PIGMENT WILL APPEAR VERY NATURAL LOOKING IMMEDIATELY AFTER THE PROCEDURE, AND THEN THE COLOR OF THE PIGMENT WILL APPEAR MUCH DARKER THE NEXT DAY.

AFTER RECOVERY PERIOD (PEELING), IT MIGHT APPEAR LIGHTER THAN ORIGINAL.

THIS MIGHT SHOCK YOU THAT COLOR IS FADING TOO QUICKLY, BUT THAT'S COMPLETELY NORMAL, THIS IS JUST SUPERFICIAL COLOR AND DRY SKIN BEING NATURALLY REMOVED FROM YOUR SCALP. THE FINAL LOOK OF YOUR HAIRLINE WILL BE APPARENT APPROXIMATELY 25-30 DAYS AFTER YOUR PROCEDURE. MOST CLIENTS WILL LOSE UP TO 20-40% OF ORIGINAL PIGMENT OF THE INITIAL PROCEDURE. WHICH WILL MAKE HAIRLINE UNEVEN. IT IS ABSOLUTELY NORMAL. MOST CLIENTS WILL NEED 2-3 TREATMENTS TO GET BEST RESULTS.

I HOPE YOU FIND THESE GUIDELINES HELPFUL FOR YOUR TREATMENT AFTERCARE
