CARMEL, IN FIRE DEPARTMENT SEES TRIFECTA OF SURRENDERS THIS SPRING

It was a wild five weeks in April for the Carmel Fire Department that enthusiastically recieved 3 surrendered infants via their Baby Box.

David Haboush, Fire Chief of Carmel Fire Department explained, "The Carmel Clay community is honored that a mother in crisis would entrust their new born baby to Carmel Firefighters. Our firefighters believe every baby deserves a home. We are proud to be able to do our part to ensure this baby finds their forever home."

These infants are proof that our efforts are working to end infant abandonment! We are proud of these brave and loving birth mothers that chose to provide a safe place to surrender their infant and now their baby will be adopted by a loving family.

NEW HEADQUARTERS

After six years of having our entire team work remotely, we finally have an office space to call headquarters in Woodburn, IN! Our new space will allow us to have all of our warehouse, storage, and main offices in one location where previously it was operated out of six different locations. Stay tuned as we share more about our new office and how to support this new endeavor!
