

# Restore Performance with Off-Site RO Membrane Cleaning

No production shutdown for CIP  
Superior Cleaning Process  
Detailed Performance Insights

## Our Proven 5-Step Cleaning Process:

### Inspection

Visual, Weighing, Serial Tracking

### Initial Testing

Salt rejection & flow at OEM datasheet pressures

### Cleaning

Processed in batches, cleaned and cycled again if necessary

### Final Testing

Salt rejection & flow report provided

### Return

Sealed, preserved, and ready-to-install membranes
