

Simulation Technician – Job Description

Operational Solutions Ltd is an industry leading company at the forefront of technological innovation and development, in both civilian and military environments. Due to continued expansion, we are now looking to recruit an experienced Simulation Technician to join our existing Technical Team on a full-time basis. Working on the latest Chinook MK6 simulators which includes a market-leading mixed reality trainer.

About You:

The successful applicant should be qualified to level 3 in one of the following disciplines: Electronic, Electrical or Telecommunications/Networking – although consideration will also be given to candidates qualified to a lower level – but that display suitable theoretical knowledge and practical skills. A keen interest in Software based capabilities and Simulation – especially within Aerospace is desirable. You must be an enthusiastic team player with good self-discipline and punctuality, with the ability to complete complex tasks unsupervised and to a high standard.

You will be required to pass the UK security vetting procedure and must be UK National.

Essential Skills/Qualifications:

- Level 3 qualification in a relevant technical discipline (or equivalent)
- Ability to hold UK Security Clearance
- Clean driving license and own transport.
- Proficient with both Linux and Windows systems.
- A customer-centric focus.

Desirable Skills/Qualifications:

- Knowledge of modern simulation architecture.
- Experience with mixed reality/augmented simulation.
- Good practical skills.
- Experience with the Chinook MK6 platform is advantageous but not essential.

Some of your duties will include:

- Shift work on an alternating basis Early/Lates (06:00-14:00 & 14:00-23:00) Mon – Fri.
- Assist with the development of the Simulators including integration and testing of modifications.
- Conduct fault isolation, repair, operational checks, and maintenance actions.
- Complete reports and documentation relating to maintenance actions and support activities using software, associated forms and maintenance logbooks.
- Maintain a clean work environment and operate with high quality operating principles during maintenance activities.
- Comply with all Safety and Security policies and procedures.
- Always remain professional and courteous in a customer facing environment.

Additional Benefits:

- Competitive salary.
- Company pension scheme
- Promotional prospects.
- 25 Days paid holiday plus bank holidays
- Work clothing provided

If you are looking for a new challenge and an opportunity to work for a dynamic company that values its staff, then we would like to hear from you.

For more information on this position and to apply for the role we have, please send a copy of your CV and a short covering letter to the following email nat.c@operationalolutions.co.uk

Only shortlisted applicants will be notified. Candidates without the above qualifications will not be considered. **Please note that you must have the right to live and work in the UK.**
