

A photograph is a memory you will have for a lifetime. It's something you can treasure forever. Photos document your journey through life. How we grow in life. They remind us of stories and places we sometimes forget.

Before pursuing my passion for photography, I worked as a nurse - a career that taught me patience, empathy, and attention to detail. I founded **Nova Photography** in Cape Town, where my journey behind the lens truly began.

Now based in Dubai, I've rebranded to **Novalina Photography** to mark an exciting new chapter. I specialize in **Newborn, Maternity and Portrait Photography**, with a heartfelt commitment to capturing life's most meaningful moments.

I believe that every photograph tells a story—one that becomes a cherished memory for years to come.

Let me capture those special moments to last forever.

A mother's joy begins when new life is stirring inside... when a tiny heartbeat is heard for the very first time, and a playful kick reminds her that she is never alone. – Author unknown

Newborn:

Becoming a mother is one of the most precious moments you will have in your life. Capture your little miracles first few days by booking a Newborn shoot. They grow way too fast.

Scheduling your newborn session:

My Newborn sessions start at 10:00am. During the first two weeks newborn babies are more sleepy early morning than in the afternoon. As we all know, babies can surprise us earlier than expected so we can't book ahead of time. Once you deliver just let me know and we will book the session during the first two weeks. It's important to me that you settle in first with your new baby.

After booking a session I will prepare the setup as you like and will give you all the options to choose from. Mommy will be given time to feed the baby before we start with the session.

It's important that you understand newborns can be photographed at any age, but certain poses may not be possible the older they get. The ideal photograph sessions are between 3-14 days old.

Smash cake:

What better way to celebrate your precious little one's birthday than smash a cake. This is usually the first time most children eat cake and truly an experience parents will never forget. A One-year milestone is such a special memory that needs that extra fun factor. Capture these treasured moments in a smash the cake session. The session will start without the cake just to give you some beautiful pictures of your little one without the mess of cake.

What do you need to bring to the session?

I provide the props for this session, but you need to provide the cake and outfit of your choice. You can choose to have two outfits during the session.

This can either be in the comfort of your home or a set location of your choice in Dubai. I do recommend a home session due to the current Covid 19 pandemic. The safety of your baby comes first.

Throughout the shoot I will be wearing a mask to protect your baby and ask you to stand close by to reposition the baby if needed. Please be assured all props are thoroughly cleaned.
