

# THE BUDE WAY

## Five positive choices to keep Bude special

### Live Bude

*Keeping it local to our  
community*

Let's support local suppliers and explore local destinations. It's good for our pockets and our planet, it protects local jobs, cuts wasteful travel and it tastes so much better.

### Walk Bude time

*Slowing it down by  
leaving the keys at home*

Let's kick back and do it 'dreckly' so we enjoy the fresh taste of clean ocean air. Let's explore by foot, bus or cycle. Let's wander slowly and carefully.

### Look after Bude

*Leaving nothing behind –  
preserve its beauty*

Let's pick up after ourselves and our pets. Let's use water and energy carefully. Let's recycle, reuse and reduce to keep Bude special for future generations.

### Hold Bude close

*Encouraging nature and  
nurturing our land*

Let's respect our environment, protect our wildlife and look after our beautiful beaches because without them there's nothing to look after us.

### Let's do this together

*Talking and sharing what we  
learn and do*

Let's be in this together and spread The Bude Way with friends and family, whether we live, work or play here. Join us, talk with us and take The Bude Way home with you.
