

Dynamic Women in Missions

May Newsletter

Toluca, Mexico April 8-19th

We rejoice in the mighty work God has accomplished through Dynamic Women in Missions. 22 devoted women have been faithfully trained through the **Seed Sower** and **Train the Trainer** programs, an anointed time of learning, equipping, and spiritual growth.

Among these women were sisters in Christ from Central America, who completed their training with diligence and joy. Each one received a certificate of completion, not merely as a symbol of achievement, but as a calling affirmed, commissioning to go forth and serve.

The **Seed Sower** program, rooted in the parable of the Sower, prepares women to faithfully plant the Word of God in hearts ready to receive it. Through **Train the Trainer**, these women have been further equipped to multiply this mission, raising up other women to walk boldly in their faith and leadership.

These faithful servants will return to their countries and villages, carrying the light of Christ into their communities. They will begin training other women, nurturing the growth of their churches, and planting new Bible studies in homes, churches, and villages. With open hearts, they will invite others to come, to learn, and to grow deeper in discipleship.

Let us continue to lift them in prayer, rejoicing in the harvest that is to come.

"The harvest is plentiful, but the laborers are few. Therefore pray earnestly to the Lord of the harvest to send out laborers into His harvest." , Matthew 9:37-38

Praying over Training

Women from Central America praying over their training, and for the future women they will be training and witnessing to.
