The International Conference on Computer and Applications (Sixth Edition): *From Theory to Applications* – Technically co-sponsored by IEEE EGYPT-SECTION

The International Conference on Computer and Applications **IEEE/ICCA'24 (Sixth Edition)** is an annual event focusing on state of the art technologies pertaining to digital information, communications and multimedia. It is an opportunity for researchers and practitioners to meet and discuss the recent trends in computer applications. It opens a new horizon for research collaboration locally and internationally. The three-day conference will consist of oral and poster presentations with plenary sessions. All submitted papers will be peer-reviewed by two reviewers applying the single blind process. Accepted papers will be published as a collective work in an electronic format and will be submitted for indexing in **IEEE Xplore (Conference Record #62237)**. The proceedings of **ICCA'17, ICCA'18, ICCA'22, and ICCA'23** were published in **IEEE Digital Library** and indexed in **dblp** and **SCOPUS**. **IEEE/ICCA'24** is an excellent opportunity for participants to meet with leading researchers working on cutting edge engineering research projects. The conference represents an exceptional opportunity to find potential collaborators and introduces your university and institutions in front of key academic leaders and top-tier scholars.

Submission Types

IEEE/ICCA conference accepts full submission of papers in different applications of computing. Young researchers are highly encouraged to participate in this conference and submit their work and establish a strong network.
