

National Names of our Product

- Fat-Filled Milk Powder (FFMP)
- Instant Milk Powder
- Full Cream Milk Powder Alternative

- Spray Dried Milk Powder
- Skimmed Milk + Vegetable Fat Powder Blend

Product Introduction

Instant Fat-Filled Milk Powder

- Packaging: 400g & 800g tin lid cans (ideal for aid distribution)
- Shelf Life: 18–24 months
- Preparation: 1 part powder : 10 parts water
- Taste: Creamy, fresh, and globally accepted

Why Milk Powder?

- Nutrition is hope: every child fed is a future secured.
- School feeding programs increase attendance and reduce malnutrition.
- Emergency relief requires rapid response in conflict and disaster zones.
- Global cooperation is essential: UN agencies, NGOs, and governments working together.

Our product is not just milk powder — it is a tool for education, stability, and resilience.

Benefits for End-Users

- High nutritional value: 15% protein, up to 25% fat
- Instantly soluble in water, easy to digest
- Long shelf life: 18–24 months
- Durable packaging: 400g & 800g tin lid cans
- Cost-effective compared to Full Cream Milk Powder
- Supports child growth in school feeding programs
- Provides essential food security in crises and disaster zones

Free From Harmful Substances

This product does not contain:

- Artificial preservatives
- Artificial colors or dyes
- Sweeteners and MSG (monosodium glutamate)
- Gluten and derivatives
- Soy and GMO ingredients
- Aflatoxin, melamine, heavy metals (tested and certified below limits)
- Pork, fish, or animal gelatin derivatives

Who Uses It?

- United Nations agencies: WFP, UNICEF, UNHCR
- International NGOs: Red Cross, Red Crescent, Oxfam, Save the Children
- Governments in Africa, Asia, and the Middle East (school feeding projects)
- Donor initiatives: EU food aid, Gulf-funded humanitarian programs
- Humanitarian logistics companies
- Global distributors working through tenders

Potential Buyers

- African governments (e.g., Uganda, Kenya, Nigeria, Ethiopia)
- Asian governments (e.g., Pakistan, Bangladesh, Nepal, Philippines)
- Middle Eastern conflict or disaster zones (e.g., Yemen, Syria, Iraq)
- UN and NGO agencies (WFP, UNICEF, CARE, etc.)
- Tender distributors based in Dubai, Amman, Nairobi, Brussels

Why Ceylan International?

Ceylan International is headquartered in **Türkiye**, with dedicated **manufacturing facilities in Iran**. This structure enables us to combine strategic international trade experience with strong and flexible production capacity.

- **Full in-house production:** Manufacturing is our core business.
- **Agile response:** We quickly adapt to market demands, tenders, and humanitarian requirements.
- **R&D and innovation:** New formulations and product improvements can be developed and implemented rapidly.
- **Reliability:** Our factories operate with international standards, ensuring consistent quality and capacity for large-volume supply.

With our expertise in production and logistics, we stand as a reliable partner for governments, NGOs, and global distributors in humanitarian aid and food security projects.

Collaboration Proposal

Together with our **KPD**, we aim to deliver nutrition and hope to vulnerable populations through our 400g and 800g tin-lid packaged instant milk powder, tailor-made for humanitarian aid and school feeding programs.
