VISION

To become a leading research organization in the Philippines, serving as a resource for educators and researchers by offering opportunities, training and linkages.

MISSION

To ensure that all our members have access to cutting-edge trainings, limitless opportunities, and consistent growth while preserving quality experience and camaraderie among our stakeholders.

GOALS

- Initiate, support, promote, and coordinate multidisciplinary research; expand the research landscape globally, particularly in South Asian nations.
- To engage in scholarly and charitable endeavors to improve society in economic growth, environmental protection, social equality, and technological innovation.
- To serve as a resource for government and private agencies, schools, individual and institutional researchers, and business by offering advice and consulting services.
- Increase our understanding by working with other institutions across India and beyond, including government and private agencies, educational institutions like schools, colleges, universities, management institutes, private organizations, and even industry and business/corporate houses.
- To better the quality and capabilities of both faculty and students, we will do awareness camps, seminars/conferences (national and international), workshops, training programs, and even training courses.
- As a repository for knowledge for the benefit of society at large, this database will hold information from scholarly and non-academic sources from throughout the globe.
- For the greater good of society and to broaden the scope of the study, to get academic articles published in journals, periodicals, and books
- To improve the quality of research areas and researchers as well as contribute to society's growth, we must engage in a wide range of projects (both domestic and international, governmental and private) at the same time.
- To carry out all programs and initiatives in the Philippines and beyond that contribute to POREP's goal.

QUALIFICATIONS FOR MEMBERSHIP

Scholars, professionals, policymakers, researchers, and graduate students can all become members of POREP so long as they share a dedication to the organization's core ideals outlined in our mission statement. You are strongly encouraged to make the most of your POREP Membership, regardless of whether you are an experienced academic or a rising student in the field of research.
