

Getting Involved at S.E.S.

We are so excited to be back in school and finally have the chance to participate in our after school programs. This session started November 8th and will run until December 22nd. With so many cool choices being offered like, Cooking class with Ms. Airyn and Ms. Seana, "Get Involved at Sipayik" with Ms. Airyn, drums alive with Ms. Curtis, STEM and story activities with Mrs. Calder and Mrs. Guire, read aloud with crafts,

making ornaments and print making with Ms. Cannizzaro, even things like designing video games and anime with Ms. LN. It was no surprise that over 120 students signed up!

Our ASP "Get Involved at Sipayik" has decided to create a school newsletter! Our goal is to maintain a positive environment while promoting kindness here at S.E.S. We are always open to ideas from parents and students!

Meet Ms. Robish

"I am excited to be in this school and to see everyone's faces everyday" - Ms. Robish

In 2015, Ms. Robish learned spanish in high school and still remembers a little. She became a teacher because she has one dog and multiple fish, she has even had work with students. She said that if she could be anything else she would become an entomologist, which is someone who studies insects, which seems AWESOME. Ms. Robish learned spanish in high school and still remembers a little. She has one dog and multiple fish, she has even had fish as class pets. Ms. Robish started teaching in Machias. Since then she has taught 4th, 5th, and 6th grade. Her hobbies are reading, hiking and needle felting. She is excited to be back in person this year.
