

Dr. Natasha Guess — Speaker Sheet

Healthcare Compliance & Privacy Expert

Founder, Guess Compliance Consulting LLC
DLP, MSL, CHC, CHPC

Signature Topic

The Audit You Don't See Coming: Why Small Practices Are at the Highest Risk

Audits are no longer an issue only for hospitals and large systems. Small and medium practices are now at the highest risk for payer audits, CMS/Medicare oversight, denials, and recoupment. In this presentation, Dr. Guess breaks down the drivers of audit risk and gives leaders the practical steps to prepare before the audit letter arrives.

Key Takeaways:

- Identify documentation and workflow errors that trigger audits
- Learn where revenue loss really starts
- See how to build audit-prepared processes without extra staff
- Understand what to fix first to protect reimbursement

Additional Presentation Topics

Documentation Mistakes That Cost Practices Money

The most expensive documentation errors and how to prevent denials, delays, and lost reimbursement using simple fixes.

How to Build Simple Compliance Systems That Actually Work

Compliance tools, workflows, and processes small practices can adopt without hiring a compliance officer.

HIPAA and Compliance Simplified for Healthcare Teams

What every provider, biller, receptionist, and medical assistant needs to know to stay audit-ready.

Building a Compliance-Strong Culture in Small Practices

How leaders can improve communication, documentation habits, and accountability.

Compliance and Revenue Protection for Small Healthcare Practices

How compliance, reimbursement, and payer contracts connect — and how clinics keep revenue protected.

State and CMS Audits: What Small Practices Need to Know Now

Real trends from CMS and payer oversight and how to build audit-ready programs today.

About Dr. Natasha Guess

Dr. Natasha Guess is a healthcare compliance and privacy expert specializing in small and medium healthcare teams. She has helped clinics prepare for CMS audits, address external audit demands, reduce denial risk, and strengthen compliance programs that protect revenue, operations, and patient trust.

She holds a Doctorate in Law & Policy, a Master's in Business Law and Compliance, and certifications in Healthcare Compliance and Healthcare Privacy Compliance.

Who This Is For

- Medical practices
- Behavioral health clinics
- Dental and specialty clinics
- Birth centers & women's health
- Med-spa & outpatient settings
- Small healthcare organizations with limited administrative staffing
