Era of higher interest rates; encourage cut in duties on fuel: Cll

New Delhi: Confederation of Indian Industry (CII) on Monday said an immediate measure to moderate inflation could be to moderate taxes on fuel products, which constitute a large share of the retail pump prices of petrol and diesel.

"CII would encourage Centre and state governments to collaborate in reducing these duties," CII President Sanjiv Bajaj said. The RBI decision to raise benchmark interest rates and the likelihood of a good monsoon will help in containing inflation, Bajaj said, addressing his maiden press conference after taking over as the CII chief. "I do believe that we are now in an era of higher interest rates. This will help us in bringing down inflation, at least a part of that going forward," Bajaj said, adding that various factors combined with the hope of a strong monsoon "should put us in a better place" by the second half of the year for policymakers to decide where inflation and interest rates move. Bajaj said the rise of inflation has two aspects demand and supply side. "RBI has already started the cycle of taking interest rates up and we should expect interest rates to continue moving up in the coming year. We

would expect from the RBI a clear direction to how they are going to address interest rates. Hopefully in the next monetary policy review we should be able to hear from them something to that extent," he said. "Global headwinds and inflation will have to be SS countered with robust policy reforms, both domestic and external sector reforms, to unlock the growth potential of the economy," Bajaj said.

"CII expects the GDP growth in a range of 7.4-8.2 per cent in 2022-23, with the outlook critically hinging on the trajectory of global crude oil prices, he said. "Global headwinds and inflation will have to be countered with robust policy reforms, both domestic and external sector reforms, to unlock the growth potential of the economy," he said. Tailwinds that are supportive of growth in the short-term include government capex, private sector investment which is showing an uptick aided by strong demand in some sectors and the PLI push in the others, good agriculture season on the back of the expectations of a good monsoon and positive export

momentum, he said. Bajaj said that India has the potential to become a US\$ 40 trillion economy by the time it turns 100, in 2047, with milestones at \$5 trillion by 2026-27 and \$9 trillion by 2030-31. Highlighting the sectoral drivers of growth, Bajaj said that manufacturing and services will be the twin engines of growth. The enabling policies of the government, particularly the PLI scheme, are expected to push manufacturing sector's contribution in GVA (gross value added) to 27 per cent by Fy48. On the important policy agenda for this decade and to set the growth momentum firmly in place, Bajaj outlined a 10-point agenda for the government. Both central and state governments must increase their expenditure on public health and education to make these services accessible to all, he said.

He said India should focus on scale and technology to power Atmanirbhar Bharat. More sectors should be brought under PLIs, especially those which are labour intensive such as leather, footwear, toys and sectors where our imports are high, but there is a possibility of building a competitive

domestic industry for example capital goods. Employment linked incentive schemes should be launched for select services sectors which have high growth potential, can generate jobs and can earn foreign exchange. Financial sector reforms are crucial for financing growth. Measures such as enabling the NBFCs to offer full banking services, deepening the corporate market, increasing insurance penetration among others are important to finance Indian economy's journey on a high growth path, he said.

LIC IPO listing: Direct link to check share price

New Delhi: Shares of Life Insurance Corporation of India (LIC) are being listed on stock exchanges on Tuesday. All eyes are now on the listing price of the LIC's initial public offering (IPO). The central government has fetched Rs 20,557 crore through India's biggest initial share sale. The government had fixed the issue price of LIC shares at Rs 949 apiece for allotment to investors. LIC policyholders and retail investors got the shares at a price of Rs 889 and Rs 904 apiece, respectively, after taking into account the discount offered. LIC SHARE PRICE

The LIC IPO listing date is here and shares are being listed on Sensex and Nifty. LIC policyholders and employees and other investors can check LIC share price on the BSE India website. One needs to go to https://www.bseindia.com/stock-shareprice/life-insurance-corporation-ofindia/lici/543526/ to check the share price of the country's largest insurer. Secretary of the Department of Investment and Public Asset Management (DIPAM) Tuhin Kanta Pandey said more than 50 lakh demat accounts have been opened in the country since November 2021. The DIPAM Secretary said this at the LIC listing ceremony event. "Applications for LIC's IPO came from remote unheard places, rural areas. People have enthusiastically participated in the LIC IPO. 73 lakh applications received, excluding anchor investor," he said. The IPO of LIC closed on May 9 and shares were allocated to bidders on May 12. The government sold over 22.13 crore shares or a 3.5 per cent stake in LIC through the IPO. The price band of the issue was Rs 902-949 a share. However, shares were allocated to investors on May 12 at the upper end of the price band. The LIC IPO -- India's largest to date -- closed with nearly 3 times subscription, predominately lapped up by retail and institutional buyers, but foreign investor participation remained muted. LIC had last month reduced its IPO size to 3.5 per cent from 5 per cent decided earlier due to the prevailing choppy market conditions. Even after the reduced size of over Rs 20,557 crore, the LIC IPO is the biggest initial public offering ever in the country. Prior to LIC's IPO, the amount mobilised from the Paytm IPO in 2021 was the largest ever at Rs 18,300 crore, followed by Coal India (2010) at nearly Rs 15,500 crore and Reliance Power (2008) at Rs 11,700 crore.

BREAKING: WPI inflation at record high of 15.08% in April on price rise across all items

New Delhi: Wholesale price-based inflation spiked to a record high of 15.08 per cent in April on rising prices across segments from food to commodities. The WPI-based inflation was 14.55 per cent in March and 10.74 per cent in April last year. "The high rate of inflation in April 2022 was primarily due to rise in prices of mineral oils, basic metals, crude petroleum & natural gas, food articles, non-food articles, food products and chemicals & chemical products etc. As compared to the corresponding month of the previous year," the commerce and industry ministry said in a statement.

The WPI inflation has remained in double digit for the 13th consecutive month since April last year.
