THE HISTORY OF BIKES AND 99

So many childhood memories involve bikes. Riding on the back in a child seat with my mom, Dad, and sister after dinner on hot summer nights. Then getting my own two wheeler, one speed and experiencing the freedom of going anywhere I wanted. Riding my bike to school everyday, rain or shine, until the age of sixteen. Riding in fundraisers, 200-300 miles per weekend with my friends across Kansas, Nebraska, Missouri, Arkansas, and North Carolina. Competing for five years in NORBA (National Off Road Bicycle Association) racing mountain bikes in Durango, Colorado. Bicycles are a part of my life that I won't live without.

One year I participated in New Belgium's TOUR DE FAT in Durham, NC and learned about the Slow Bike Race. The Slow Bike Race is a race to see who crosses the finish line LAST. Sounds easy, right? Well, the rules are: travel in a straight line towards the finish line pedaling as slow as possible without touching the ground, turning around, or adding any curves/zig-zags to your path. We will host the second Brewery 99 Slow Bike Race during the Pollock Street Block Party to raise money for Habitat for Humanity. To find out more about the Slow Bike Race, continue reading our Newsletter and visit our website to register (www.brewery99.com).

Sincerely, Pete Frey & Team 99

Bike Parade &
Slow Bike Race**

BREWERY 99 SLOW BIKE RACE

Brewery 99 is hosting a Slow Bike Race to raise money for Habitat for Humanity on Saturday, May 21, 2022 at 5:00 pm during the Pollock Street Block Party.

What is a slow bike race? What are the rules?

- Last bike across the finish line wins!
- No touching the ground (feet/hands/legs/arms/any body part)
- You must travel in the straightest line possible, no intentional zig-zags or curves or circles allowed
- Have fun!!
