

CHEMDAWG OG- CBD

First cultivated in Florida in the early '90s, and has developed quite the name for itself over the years. Between its mysterious origin, ambiguous genetics, and the plethora of successful crosses the strain has produced, CHEMDAWG has practically secured itself a permanent place in the cannabis hall of fame boasting a complex aroma with notes of fuel, skunk, and spice. Pungent and sharp, you'll be able to smell this strain from a mile away!!

Green Dream

A hybrid strain that relies on some powerful genetics to reach impressive new heights of euphoria and healing.

Although its original breeder is undocumented, GREEN DREAM is known to be a cross between the uber-popular Blue Dream and notorious sativa Green Crack.

JACK FROST- CBG

One of the newest CBG-focused hemp strains in the market today. Grown indoors and packed with crystals, it's one of the latest in a movement to create more diverse and medicinal hemp strains. The sweet flavors accompanied by the potentially calming effect make JACK FROST a great smoke.

Super Space Candy

A sativa hemp strain that is highest in the cannabinoid CBDA (raw plant). If you thought you were headed to space with the original SUPER SPACE CANDY, then this flower is sure to delight! The powerful, unmistakable flavor of extreme lemon and sweet and sour candy are truly out of this world.

Frosted Lime

A playful and energy-boosting Sativa CBD strain with a powerful citrus flavor and aroma. It's a strain that has become increasingly popular in 2021 for its anxiety-melting effects that puts a smile on your face and a spring in your step.

The exact lineage of FROSTED LIME is unknown. We do know that Frosty is one of the parents, but the other one is unknown. And since Frosty is an Indica strain it's safe to assume that the unknown cultivar is a potent Sativa strain considering the Sativa nature of Frosted Lime.

IVANKA

The Wife x Cherry Blossom are the genetics for this Sativa dominant strain that loves a full-term growth season, with its larger than average trichomes it's top choice for indoor cultivation. With its bountiful gas and sweet terpenes, discover the powers of IVANKA.

BUBBA KUSH- CBD

A strain that has gained notoriety in the US and beyond for its heavy tranquilizing effects. From head to toe, muscles ease with heaviness as dreamy euphoria blankets the mind, crushing stress while bringing happy moods. BUBBA KUSH exhibits a distinctive, bulky bud structure with hues that range from forest green to pale purple.
