SYMMETRIKIT
ACHEEVA[®]
LEARNING STATIONS

SYMMETRIKIT
POSTURAL CARE

Symmetrik is a division of The Helping Hand Company, Ledbury Limited

Proven to be
truly
inclusive

Safe supported
lying for better
learning outcomes

Acheevas have proven to be truly inclusive, allowing students who cannot sit in their wheelchairs all day to join in all classroom activities

Side lying with optional support pack

Acheevas use Symmetrisleep positioning elements to provide support in supine, prone or side lying.

Students who would otherwise struggle to maintain a functional position can relax and focus on learning and play.

Battery adjusted height, back and bed angles enhance communication and interaction.

Built in inclinometers for easy re-set

Being off the floor is safer for students and better for staff members' backs and knees.

When a bathroom break is needed, just wheel the Acheeva in there and cut out the hoist transfers: less time fitting slings is more time in class. Adjustable height makes it easy for those who can do a standing transfer.

Easy braking

Optional side or end tables

Find your ideal working height

For study, working-out or relaxing

Optional Extras

Support packs help you get the most out of your Acheeva. Choose between the Student and Graduate packs. Bumper packs offer alternative support.

Adjustable side and prone tables can be added for extra functionality. Ideal for keyboards, tablets and books. Now with nonslip surface.

Reversible Airmantle with breathable top layer and waterproof PU base, combine comfort and mattress protection.
