COOLOVER^{TR3}

with Omnitherm

We have designed our latest **Allday** fabric to offer a safe, effective "sit in" sling. The knit has been engineered to allow more adequate stretch pressure relief (it has more stretch than most cushion covers) while being strong enough to be safe with minimal gusseting.

Now loaded with Omnitherm, these slings work to maintain a more normal temperature, absorbing heat when you get hotter and releasing it back when you cool down again.

Omnitherm[®] Thermal Comfort

NEW Progressive knit - this new knitting technique produces a fabric which encourages moisture to move through the fabric and away from the body; a mix of hygroscopic bamboo helps to keep you dry.
