## Wolfhound Consulting and Investigation Services

daniel@wolfhoundcis.com

### Bio

*Daniel Bertrand helps organizations investigate complex, sensitive, and technology-enabled matters with disciplined methodology, clear judgment, and practical insight. His work brings together investigative experience, cyber intelligence, insider risk expertise, digital evidence capability, and responsible use of modern investigative technologies.*

### Executive Bio

Daniel Bertrand is a senior investigative, intelligence, cyber intelligence, and insider risk specialist who helps organizations navigate complex, sensitive, and technology-enabled matters. He brings more than 35 years of public-sector experience, including over 30 years with the Royal Canadian Mounted Police, where he retired as a Commissioned Officer after work involving organized crime, national security, technical investigations, and intelligence operations. As founder of Wolfhound Consulting and Investigation Services, a licensed private investigation agency in Ontario, Canada, Daniel combines disciplined investigative practice with expertise in OSINT, digital forensics, cryptocurrency investigations, workplace investigations, and responsible AI-enabled investigative workflows.

**Summary:** Daniel helps clients turn complex information into clear investigative insight, practical risk decisions, and defensible outcomes.

### Professional Profile

Through Wolfhound Consulting and Investigation Services, Daniel provides investigative, advisory, training, and methodology-development services to public and private sector clients. His work integrates traditional investigative practice with modern cyber, digital, social media, darknet, blockchain, and artificial intelligence capabilities. He holds an Ontario Private Investigator licence, Government of Canada security clearance, a Professional Certificate in Canadian Insider Risk Management, and certifications in artificial intelligence, prompt engineering, cryptocurrency investigations, cyber intelligence, social media intelligence, and digital forensics.

### Services

Wolfhound Consulting and Investigation Services helps public and private sector organizations investigate complex matters, manage insider and cyber risk, and apply modern investigative technologies responsibly. Services are grounded in disciplined investigative practice, lawful authority, evidence integrity, practical innovation, and clear reporting.

Core service areas include complex investigations, cyber intelligence and OSINT, insider risk management, digital forensics and technical investigations, cryptocurrency and blockchain investigations, workplace investigations, and AI-enabled investigation training.

## Complex Investigations

Independent support for complex, sensitive, or technically enabled matters requiring sound methodology, evidence discipline, and clear reporting.

Open-source research, social media intelligence, cyber intelligence support, dark web awareness, infrastructure research, and investigative enrichment conducted with lawful authority and proportionality.

## Insider Risk Management

Advisory, training, and investigation support to help organizations prevent, identify, assess, and respond to insider risk using multidisciplinary and privacy-aware methods.

## Digital Forensics And Technical Investigations

Support for collecting, analyzing, interpreting, and preserving digital evidence, including practical guidance on evidence handling.

## Cryptocurrency And Blockchain Investigations

Support involving cryptocurrency, blockchain transactions, fraud typologies, tracing concepts, and investigative reporting.

## Workplace Investigations

Support for workplace, harassment, misconduct, and policy-related investigations with attention to fairness, documentation, and legal or policy boundaries.

## AI-Enabled Investigation Training

Training and advisory services that help investigators, analysts, and leaders responsibly apply AI tools, prompt engineering, AI-assisted research, validation, and governance.
