# OUR GUIDING PRINCIPLE

- Haiti often brings thoughts of extreme poverty, tragedy, and a people stuck in hopelessness.
- While these images are real, it is not all there is to Haiti... we seek to focus on the amazingly resilient people with a vibrant culture of creativity, beauty, and possibility.
- Most importantly, we believe Haitian voices must be the center of their stories—they have a strong desire to provide for themselves.
- The Haitian leadership in Bondeau must be the leaders... SFHP is the *partner* that comes alongside them in their dreams, challenges, and everyday life.
- When you support the South Florida Haiti Project, you invest in Haitian leaders doing transformative work in education, community development, health, and sustainability.
