TELECOMBO™

6ft Ladder Shown

STABILITY AND SAFETY COMBINED

The Telecombo was designed to make technicians jobs safer and easier. The Quick Latch hinge allows users to quickly see the hinge is engaged and safe to climb.

Designed with a contouring wall pad that spans the width of the ladder for better weight dispersal lessening the changes of damaging walls. Also designed in a gray to be non-marring. Also equipped with wide flare feet on the rear section to give added stability when climbing both sides of the ladder. On the front of the ladder it's equipped with Sure-Set Feet making it so you can use it in the spiked foot position outside giving you additional safety while climbing.

1-YEAR LIMITED WARRANTY
