ABOUT KONTINA

Kontina Vanessa Clark is a faith-centered author, speaker, and healing advocate who helps women rediscover identity, wholeness, and purpose after loss, trauma, and life-altering transitions.

A registered nurse by profession and a survivor by lived experience, Kontina brings a rare blend of professional credibility and spiritual depth to conversations around grief, healing, faith, and womanhood. Her voice resonates with women who love God deeply yet have walked through seasons that tested their faith, strength, and sense of self.

Through her Good Girl book series, speaking engagements, and Kingdom-oriented creative work, Kontina creates honest, sacred spaces where healing is not rushed, minimized, or spiritualized away — but met with truth, grace, and surrender.

She believes healing doesn't require perfection — only obedience, honesty, and the courage to become whole.

“Healing doesn’t require perfection – only surrender.,,”
