Kuhn's Red Angus

James, Stephanie Kuhn

Elodie, Reagen, Hudson, Brock & Kyah Kuhn

6962 28th Ave SE

Napoleon, ND 58561

Home: 701-332-6378

Cell: 701-426-6921

Thank you for your interest in our 30th year – it means more to us than we can express.

We've been busy this year as a family, so let me get you caught up on the kids.

Starting with the baby of the family – Kyah turned 8 last September. She started second grade this year and has enjoyed seeing her friends (and getting some time away from home). When she is home, she spends her time taking care of her many cats.

Brock is 10 – soon to be 11 in July – and is about to finish 4th grade. He's the farmer of the bunch. He loves driving tractors, whether it's raking, riding along with Dad or even feeding (though he tends to complain about that one quite a bit).

Hudson, the oldest boy, will turn 14 in August. He's almost done with 7th grade and is growing fast – literally! Before long, he'll be the tallest in the family. He played basketball and football this year and loved being away for games. Recently, he joined Speech and Drama, which means more time spent with his favorite older sister, Elodie.

Reagen is the second oldest at 15. She's involved in volleyball and loves going to practices and games with her friends. She's about to wrap up her freshman year and can't wait to start her sophomore year. At home, she spends a lot of time with her horse, Mouse, whom she absolutely loves.

The oldest of the family is Elodie. She's 16 – soon to be 17 in May – and has had a very full year with FFA. She was named High Individual in the Food Science CDE this summer, where she showcased food safety practices. She also served as Parliamentarian for the state runner-up parliamentary procedure team. In livestock judging, she placed 9th at state.

Right now, Elodie is involved in Drama, Speech, Track, and National Honor Society. She's also a member of the North Dakota Junior Red Angus Association. She plans to follow her passion for animals into a veterinary career and hopes to attend college to become a vet.

Thank you again for your continued support of our program.

James, Stephanie Kuhn • Elodie, Reagen, Hudson, Brock and Kyah

Huber EY Red Angus

Bryan & Emmy, Isaac, Alex & Betsy Huber

5866 76th Ave SE • Jud, ND 58454

Home: 701-685-2687 • Bryan: 701-320-8054

Emmy: 701-320-1995 • Alex: 701-709-0850

Welcome to our annual production sale!

Thank you to our past customers and supporters for believing in our program. We've been raising Red Angus for 28 years, and our goal remains the same: to breed for balanced traits, cull hard, and grow bulls that will go out and last.

The bulls have been fed here at the ranch. Their diet consists of a TMR mixture of alfalfa, hay barley, hay, silage, DDGs, corn, and a mineral supplement. They only receive creep feed in the form of a cocci pellet for a few weeks in the spring before turnout.

The bulls have been 50K tested, ultrasounded and have passed their first semen exam conducted by Dr. Galbreath in Edgeley. They will also have received a foot rot shot and pre-breeding shot.

We also run a commercial herd and farm, so our workforce is very important. We want to thank Joe, Garrett, Isaac, Emma and Betsy for everything they do on a daily basis. Thanks also to Alex, who will be graduating from NDSU this spring and is transitioning to become the head cattle boss around here.

We encourage you to visit the ranch and view the bulls before the sale – plus receive \$100 credit toward a bull purchase. We stand behind our bulls and will assist you in any way we can.

The Hubers

Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus

Friday, April 25, 2025 at 5 p.m. CDT

Napoleon Livestock, Napoleon, ND • 1-800-932-8821 • 701-754-2216

Complimentary beef lunch will be served by Karri's Kitchen starting at 3:30 p.m.

Please feel free to visit the ranches to look at the cattle before hand.

They will also be at Napoleon Livestock on Thursday, April 24, by 5 p.m. for viewing before the sale.

Remember, you can also bid online with DVAuction, or call one of our ringmen to help with phone bidding.

Crosshair Simmental

Ben & Cassie Kleppe
Brinley, Hailey, Jaxson,
Colton, Jace & Bodey
3220 48th St SE • Dawson, ND 58428
Home: 701-327-8330 • Cell: 701-426-9210

Hello and welcome to our 16th annual production sale.

First, we want to thank our past buyers for their confidence and support of our program. We are grateful for the friendships we've made and the continued support we've received throughout our time in this business.

The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers, and a complete mineral program. The bulls did not receive creep feed. The average daily gain test started on the day of weaning – November 1– and continued for 120 days. We feel this long test honestly shows what they can do through the weaning process and a good portion of the winter.

We always aim to grow the bulls rather than push them. We take pride in representing our cattle honestly – absolutely no “fluffed” numbers or information. We believe in breeding the most balanced and functional cattle possible. We do not chase any one individual trait.

All the bulls are semen tested, soundness evaluated, and genomic enhanced, with EPDs available on every offering. These bulls are ready to go to work for you.

As we look to the future of our program, we recognized it was time to make changes to become more efficient with less labor force. With this in mind, we have decided to move our calving date back to align with our commercial herd, which will also shorten our calving season.

With that change, we will transition to selling coming 2-year-old bulls starting with our 2026 sale. To make this transition possible without sacrificing quality by simply digging deeper into our bull pen, we worked with our friends at TNT Simmentals to acquire some extra, high-quality bulls to help provide a strong offering for both the 2025 and 2026 sales.

We believe this approach allows us to offer some of our top-end bulls in both years while

keeping both offerings as balanced as possible – until we have our full-force bull crop available in 2027.

If you have questions about how we are moving forward, we'd love to visit with you about how we plan to continue offering the same quality you've come to expect from our program – now at a more developed age, which we believe brings added advantages to our customers.

While we haven't yet finalized the date or format for our age-advantaged bull sale, we do know it will take place in late January or early February 2026. Stay tuned for updates on our website and in future advertising.

We'd like to thank the Kuhn and Huber families for their friendship and partnership in this sale. It's been a pleasure to work alongside such good people. As change is inevitable in life, we begin a new chapter in our program with excitement about what we'll offer to our customers in the years ahead.

We encourage you to view the bulls at the ranch anytime before the sale and receive \$100 credit toward your bull purchase. If you're unable to attend, give us a call – we'd be happy to talk through the bulls and help you find the best options to fit your individual needs.

Videos of each bull will be available on DVAuction.com or our website, crosshairsimmental.com. Once again this year, some of our valued customers will be bringing top-end commercial heifers to the offering – so be sure to check those out as well.

We invite you to take the evening off and join us at 5 p.m. on April 25 at Napoleon Livestock. We hope to see you at the sale and let you see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability.

Thank you for your interest and support.

Ben, Cassie, Brinley, Hailey, Jaxson, Jace, Colton and Bodey Kleppe

Sale Day Phone:

Ben Kleppe	701-426-9210
Cassie Kleppe	701-471-2699
James Kuhn	701-426-6921
Stephanie Kuhn	701-269-9959
Bryan Huber	701-320-8054
Emmy Huber	701-320-1995
Alex Huber	701-709-0850

Sale Order:

The bulls will be sold by a sale order that we will put together sale day.

Cattle Viewing:

Prior to April 24, Kuhn's Red Angus bulls can be viewed at the farmstead 7 miles south of Napoleon on Hwy 3, 3 miles west then 1/2 mile north.

Crosshair Simmental can be viewed at the farmstead 15 miles north of Napoleon on Hwy 3 and 1 mile west.

Huber EY Red Angus bulls can be view at the farmstead 2 miles north of Jud, N.D., 3 miles east, and 1/2 mile north..

The cattle will be available to view at Napoleon Livestock on Thursday, April 24, after 5 p.m., and all day on Friday, April 26.

The sale begins at 5 p.m. Central Time.

Advertising and Catalog: Cow Camp Promotions • www.cowcampcatalogs.com

Printing: United Printing, Bismarck, ND

Liability:

All persons attending the sale do so at their own risk. Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus assume no liability, legal or otherwise, of any accidents which may occur.

Livestock Insurance

We recommend insuring your purchases at the sale. Livestock Insurance will be available through Martin-Trudeau Insurance with Virginia Ernst. Contact her at the sale or by phone at 701-320-0331 or e-mail at vernst@juffer.com.

Breeding Guarantee:

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2025. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

Terms and Conditions:

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S. dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

2-Year-Old Red Angus Bulls

Simmental Guide to EPDs

Courtesy of the America Simmental Association. For more information on EPDs, visit simmental.org.

CE Calving Ease – predicts the ease with which a bull's calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

BW..... Birth Weight – predicts the difference in average birth weight of a bull's progeny compared to other bulls.

WW Weaning Weight – predicts the difference in average 205-day weight of a bull's progeny.

YW..... Yearling Weight – predicts the difference in average 365-day weight of a bull's progeny compared to other bulls.

MCE Maternal Calving Ease – The ease with which a sire's daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire's daughters.

Milk Milk – predicts the milking ability of a bull's daughter. A positive value indicates above average milking ability.

MWW Maternal Weaning Weight – predicts the weaning weight of a bull's daughter's calves in pounds. A positive value indicates higher-than-average weaning weights.

CW..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

REA Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal's progeny. Express in sq. inches.

MARB .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

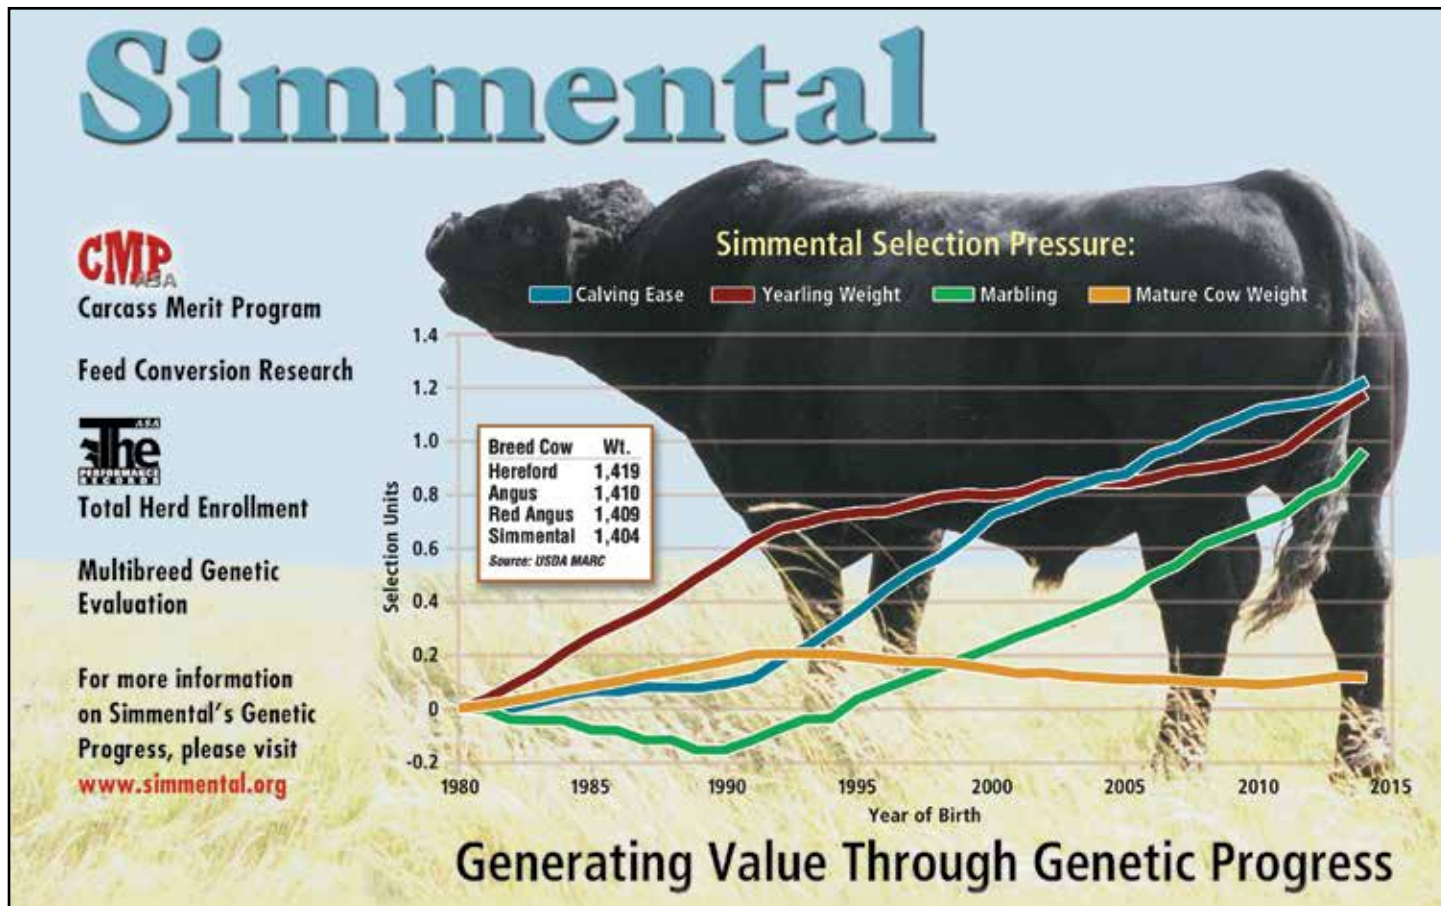

BF or FAT Backfat – predicts the average differences between an animal's progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

YG Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

STAY Stayability – predicts the probability that a sire's daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

API All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

TI Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

Lot numbers 60 through 68 are bulls raised by TNT Simmentals.

Over the past few years we have acquired some new herd sires from TNT, purchased some embryos and this fall we purchased a set of top-end cows from them as well. As part of the process of transitioning to age-advantage bulls in 2026, we were looking for ways of how we could do this without skipping a year for our loyal customers, while still aiming to maintain the quality our customers have come to expect from CHSR.

In conversation when purchasing these cows, we were given the opportunity to pick some bulls off the ranch – out of their program – that we feel will fit well with what our customers have come to expect from CHSR bulls. We have been very impressed with

the TNT program and will continue to utilize their genetics in our program moving forward. We know our customers will be pleased with what they have allowed us to choose and offer to you.

These bulls were developed at TNT until March 1, 2025, and have since been at our ranch, so they are not indexed with our bulls. They also did not have any creep feed. They are semen tested and ready to go to work just as our own bulls are. We at CHSR will guarantee these bulls as if they were our own and if any issues or problems may arise, do not hesitate to contact Ben.

We would like to thank TNT Simmentals for allowing us this opportunity and helping us with this transition and our desire to provide top-end, consistent quality for our customers.

MARTIN-TRUDEAU INSURANCE

LIVESTOCK DIVISION

★ Livestock insurance endorsed by the SD & ND Angus Associations, the SD Simmental Association and the SD Hereford Association ★

LIVESTOCK INSURANCE

[] OPTION 1: All Risk Mortality (ARM)-100% Indemnity *Bulls & Females*

Livestock Mortality Insurance is extended to indemnify the livestock owner for loss as a result of the death of an animal from natural causes, disease, accident or humane destruction to alleviate incurable and inhumane suffering resulting from a covered peril.

[] OPTION 2: ARM + Accidental External Injury (ACC)-80% Indemnity *Bulls Only*

Mortality coverage plus coverage for injury causing Permanent Infertility (broken penis or stifle). Requires a current Veterinary Certification (not over 30 days old).

[] OPTION 3: ARM + Accident Sickness & Disease Infertility (ASD)-80% Indemnity *Bulls Only*

Mortality Coverage plus coverage for injury causing Permanent Infertility (broken penis or stifle). In addition to coverage above, this also includes Total and Permanent Infertility (fever or infection causing infertility or disease). Requires a current Breeding Soundness Evaluation (not over 30 days old).

[] OPTION 4: ARM + Comprehensive Infertility (COMP)-85% Indemnity *Bulls Only*

Covers all of the above, plus Frozen Testicles, Testicular Degeneration and infertility caused by abnormalities. Also pays 20% of insured value for temporary infertility of 21 days or more. This does not replace the Breeder's Guarantee. Requires a current Breeding Soundness Evaluation (not over 30 days old).

ALL OF THE ABOVE COVERAGES ARE SUBJECT TO APPLICABLE DEDUCTIBLES AND/OR COINSURANCE, MINUS SLAUGHTER VALUE.

www.Martin-TrudeauInsurance.com • 1531 W. Elm Street, PO Box 487, Mitchell, SD 57301 • 605-996-3106, 800-450-3106

- We used Bieber Maximus J237 for his favorable growth and structure, carcass and solid maternal background. He is moderate in size and easy fleshing.
- 430 is the complete package. He has earned respect in the pen since birth.
- He is athletic, smooth topped and stout.
- Dam 7083 is a very appreciated in our herd and stems from Barentsen-Bullinger Red Angus.

- Kruser 16K comes from the L 83 Ranch. We appreciate his outcross genetics and top notch structure. He is proving to stamp his offspring with the same. The 16k heifers in replacement pen are looking to be very functional females.
- 4126 has an athletic sleek look, strides easy and is heavy muscled.

Commercial Heifers

15 Head Commercial Red Angus 100% 1A Heifers

James and Stephanie Kuhn, Napoleon, ND701-426-6921

These Red Angus heifers have been on a full vaccination and mineral program. Weighing around 900 lbs. They have been vet checked and are open and breedable. These beautiful ladies are coming straight out of our replacement pen.

There will be a supplement sheet at the sale with individual performance data on each heifer.

Please contact us if you need any more information.

15-20 Head Commercial Red Angus Heifers

Justin and Chris Weigel, Kintyre, ND701-321-1840

In February, these heifers were Bangs vaccinated and given Preg Guard shot and pink eye shots and poured with Clean Up. In the spring, they received two rounds of shots (birth and turnout) and this fall they had Inforce 3, One Shot, BVD, Ultrabac 7 Somubac. At weaning, they were boosted with Somubac and Bovi Shield Gold 5. They are on a full mineral program and they are the top of our herd for replacement heifers. We have used Kuhn's Red Angus bulls for many years. They will weigh 850-900 lbs.

60 Head Commercial Red Angus/Simmental Commercial Heifers

Karen Mutschler or Jeremy Hoff, Eureka, SD 605-281-0055 or 605-281-0257

These heifers are February- and March-born calves and have been on a full vaccination program with four rounds of shots:

Birth: Alpha 7, Autogenous Mycoplasma, Autogenous Type A, Nasalgen 3 PMH, Excede and CattlActive

Pasture Turnout: Vista Once, Caliber 7, Autogenous Mycoplasma, Nasalgen 3, LongRange, CattlActive and DNA tested

Prewearing: Pyramid 5

Weaning: Vista Once, Caliber 7, Autogenous Somnus, Autogenous Mycoplasma, and poured with Clean Up

In December, they were Bangs vaccinated, pelvic measured, checked open and breedable. They were given Bovi Shield Gold FP5/VL5 and EID Bangs tags by Dr. Cassie Holtz out of Bowdle Vet Clinic. At this time, we gave them another Autogenous Type A.

They have never had creep feed and have been on a 45 mCal balanced ration, free-choice garlic salt blocks and were given Safeguard dewormer in November.

The heifers should have a sale day weight of 900-950 pounds. These heifers come from many years of Aling and Crosshair Simmental genetics

Please contact us with any questions.

41 Red Simmental/Red Angus Heifers

Terry and Landon Harpole, Dawson, ND Terry: 701-391-3758 or Landon: 701-426-5847

These heifers are the pick from the 2024 heifer crop. Picked for maternal characteristics, maternal and disposition. They are all on a 40 mCal ration since December and have never had creep feed or implants and carry no brands. These heifers are all April and May born. No heifers have been kept back – these are the top end of the entire heifer crop. These heifers come from many years of sires from Crosshair Simmental genetics along with top AI sires and should make great cows. Heifers will be averaging 800-850 pounds.

The heifers were given Ultrabac CD at birth.

June 1 – Inforce 3, One Shot BVD, 7 Way/Som and pink eye shot.

Nov. 1 – CattleMaster Gold, One Shot and 7 Way/Som, injectable dewormer.

Nov. 21 – Bovi Shield Gold, Somubac, poured with Clean Up.

Feb. 26 – Bangs vaccinated and pregnancy checked open and breedable by the Steele Veterinary Clinic. Given CattleMaster VL5 and poured with Clean Up.

Thank you for your confidence in our programs and your support at the sale.

If we can be of any assistance with your new purchases, please don't hesitate to call!
