Thank you for your interest in our 31st year. It means more to us than we can express.

As you may have seen or heard, we dispersed our younger group of cows. By no means are we getting out of raising Red Angus bulls for you, our customers. We merely cut our herd size down and, in doing so, we are using our new genetics that have a more interesting and diverse genetic package for you, our customers.

Please don't hesitate to reach out if you have any questions about the new genetics or would just like to visit about our bulls we are offering. You are also more than welcome to stop by the ranch and take a look for yourself!

Now a little bit about the family! Kyah, our youngest, turned 9 in September, and is in 3rd grade. She loves going to school to hang out with her friends, but she is excited for the school year to end. She is currently on the 3rd grade girl's traveling basketball team and is excited to get to play sports when she is older.

Brock, our youngest boy, will turn 12 in July and he is a 5th grader. Brock likes to stay home more than go to school and is an avid help with feeding and other work around the farm. Brock played football this past fall, and he enjoyed it as well!

Hudson, our oldest boy, is an 8th grader this year, although he is the height of a senior! Hudson helps around the farm a lot, but he likes to get off it as much as he can! He enjoys going ice fishing, driving around or going to games in town. He was also in football this past fall and is currently in livestock judging with his oldest sister, Elodie!

Reagen is the second oldest and she is currently a sophomore. She enjoys hanging out with friends and driving around town. She is in FCCLA, where she participated in District Leadership.

Finally, Elodie is the oldest, and she is a senior. She plans to attend South Dakota State University this fall for a major in animal science with pre-veterinary medicine emphasis. She is involved in FFA, where she is chapter president, FBLA, where she is chapter treasurer, Student Council, Honors Society, Drama, Speech and North Dakota Junior Red Angus. She will graduate this May as her class's valedictorian!

In closing, we would like to thank everybody for taking the time out of their busy schedules to support us!

Sincerely,
James and Stephanie Kuhn and Family

Huber EY Red Angus

Dear Friends and Cattlemen,

Welcome to the annual Huber EY Red Angus production sale.

We first want to take the time to thank past buyers for supporting our program. The people in our corner make this possible and worth our time.

Here at Huber EY Red Angus, we are proud and grateful to be part of the small percentage of producers dedicated to supplying the food and fiber that sustains our country. Our goal has remained the same: be deliberate in our cull process and offer the highest end to our customers. We strive to make practical cattle, built to operate in real world conditions. We focus on a balance of structural soundness, carcass merit, performance and fertility. Our family stands behind every hide that sports the EY brand.

We have been feeding the bulls here at the ranch since weaning time. Their diet consists of a TMR mixture of hay barley, hay, silage, DDGs, corn and a mineral supplement. Our nutrition goal is to develop these bulls responsibly; we want them to be able to work for our customers and last.

The bulls have been 50K tested, ultrasounded and have passed their first semen exam conducted by Dr. Galbreath in Edgeley. They have also received a foot rot shot and a pre-breeding shot.

Alongside our registered herd, we run a commercial cow herd and farm. We would not be able to undertake it all without the help of our workforce. We want to thank Joe, Garrett and our family for everything they do. Though the work can be challenging, there's nothing more rewarding than building a future alongside the next generation.

We encourage you to visit and take a look at the bulls before the sale at the ranch. We would love to show you the cow herd that back these genetics.

We look forward to the chance to visit with you and earn your business.

Sincerely,
The Huber family,
Bryan, Emmy, Issac, Emma, Alex and Betsy

In Loving Memory
Francis "Jim" Huber

Scott Ressler, N.D. Stockmen's Assn.	701-391-7310 Cell
Jory Boote, Cattle Business Weekly.....	701-789-7047 Cell

Selling:

47 Red Angus Yearling Bulls

The cattle will be available to view at Napoleon Livestock on Thursday, April 23, after 5 p.m., and all day on Friday, April 24.

The sale begins at 5 p.m. Central Time.

Sale Order:

The bulls will be sold by a sale order that we will put together sale day.

Cattle Viewing:

Prior to April 23, Kuhn's Red Angus bulls can be viewed at the farmstead 7 miles south of Napoleon on Hwy 3, 3 miles west then 1/2 mile north.

Huber EY Red Angus bulls can be view at the farmstead 2 miles north of Jud, N.D., 3 miles east, and 1/2 mile north..

Delivery:

Free delivery on bulls up to 250 miles.

Online Videos and Catalog:

www.kuhnsredangus.com • www.hubereyredangus.com
dvauction.com • cowcampcatalogs.com

In case of inclement weather on sale day, the sale may be video format with the bulls not entering the ring. The bulls will be penned in the back for visual appraisal.

Volume discounts available:

We will offer volume discounts if you purchase multiple bulls from either Kuhn's Red Angus or Huber EY Red Angus – 3% discount on three bulls, a 4% discount on four bulls and a 5% discount on five or more bulls. Discount does not apply to a combination of bulls purchased from both.

Liability:

All persons attending the sale do so at their own risk. Kuhn's Red Angus or Huber EY Red Angus assume no liability, legal or otherwise, of any accidents which may occur.

Livestock Insurance

We recommend insuring your purchases at the sale. Livestock Insurance will be available through Martin-Trudeau Insurance with Virginia Ernst. Contact her at the sale or by phone at 701-320-0331 or e-mail at vernst@juffer.com.

Terms and Conditions:

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50-per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

Online Bidding:

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see Page 3 for instructions on registering and bidding.

Breeding Guarantee:

Kuhn's Red Angus and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2026. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus and Huber EY Red Angus strongly encourage taking insurance on your purchases.

Red Angus Guide to EPDS and Indexes

ProS – Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include CED, ADG, HPG, STAY, MW, DMI, CW, MARB, REA and Fat.

Index | Dollars per Head | Higher Value

HB – HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning.

HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning.

This index is a combination of CED, CEM, WW, Milk, MW, HPG and STAY.

Index | Dollars per Head | Higher Value

GM – GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feed yard performance and carcass traits.

GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. This index is a combination of ADG, CW, DMI, MARB, Fat and REA.

Index | Dollars per Head | Higher Value

CED – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams.

Percent | Higher Value

BW – Birth Weight predicts differences in actual birth weight of progeny. **Pounds | Lower Value**

WW – Weaning Weight predicts differences in 205-day weaning weight. **Pounds | Higher Value**

YW – Yearling Weight predicts differences in 365-day yearling weight. **Pounds | Higher Value**

ADG – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. **Pounds | Higher Value**

DMI – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period.

Pounds | Lower Value

MILK – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. **Pounds | Higher Value**

ME – Maintenance Energy predicts the difference in maintenance energy requirements. **Mcals per Month | Lower Value**

HPG – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. **Percent | Higher Value**

CEM – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers.

Percent | Higher Value

STAY – Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. **Percent | Higher Value**

MARB – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib.

Marbling Score Units | Higher Value

YG – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. **Yield Grade Units | Lower Value**

CW – Carcass Weight predicts differences in actual hot carcass weight. **Pounds | Higher Value**

REA – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. **Square Inches | Higher Value**

FAT – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. **Inches | Lower Value**

RED ANGUS MARKETING PROGRAMS

How to Enroll in Angus Access & Allied Access

1. Contact the Red Angus value-added department at **940-477-4593** and complete a short supplier enrollment questionnaire over the phone. RAAA staff will ask general management, animal identification and breeding questions. If needed, the producer may be asked to supply additional documentation on breeding such as semen receipt, lease agreements or information on purchased females.
2. After all documentation is recorded, staff will ship the tags directly to the producer who must tag the calves before they leave the ranch of origin – birth, branding, preconditioning, weaning or before loading on the semi.
3. The producer will receive a customer enrollment agreement to fill out and return to RAAA with a copy of their calving records.
4. Staff will issue the USDA-approved Certificate of Compliance upon receiving the customer enrollment agreement and calving record.

EID Tags are required for program identification. Outside-purchased EIDs can be brought in for \$1 per tag.

- Traceability to at least 50% registered Angus bloodlines
- Source verified to ranch of origin
- Group age verified
